## PERSKINDOL BENEFITS

Perskindol Classic combines pharmacological and non-pharmacological approaches for an immediate calming feeling and a stimulation of the natural healing process after musculoskeletal injuries.

### PERSKINDOL CLASSIC TRIPLE THERAPEUTIC ACTION

Thanks to its formulation exclusively based on essential oils, Perskindol is well tolerated and suitable for long-term use. Perskindol is non-staining, non-greasy, non-sticky and has a very pleasant, relaxing smell. Perskindol products are designed for each individual need depending on the type and location of injury (gel for precise areas, spray for difficult to reach body areas).
