- 1pk x BD001 bead charm w metal cntr 15mm white 2pcs
- 2pk x JF930 spacer donut w diam 10mm br sil 2pc
- Ribtex round nose pliers
- Ribtex wire cutter pliers

DIFFICULTY ●●●

Instructions

Step 1

Trim off 10 lengths of Oval Link chain approx 10cm in length.

Step 2

Trim the head off from the Head Pin and create a loop at one end. Leave open enough and thread the Oval Link Chain on, then close off.

Step 3

Thread a Diamante Donut Spacer, bead charm, diamante spacer, bead charm and a diamante spacer

onto the tasselled head pin then create a loop. The loop with the chain should be hidden under the first spacer.

Step 4

Cut a piece of Tiger Tail approx. 75cm long.

Step 5

Thread two crimpers onto one end of the Tiger Tail, then pass through the loop at one end of the magnetic clasp and back through the crimpers. Press crimpers down to fasten off. This will stop your beads falling off as you thread them onto your Tiger Tail.

Step 6

Thread 120 pearls onto the Tiger Tail. Halfway through threading the pearls, thread the beaded tassel head pin then continue with threading until all the pearls are on.

Step 7

Thread two crimpers onto the end, pass through the loop of the other end of the magnetic clasp and back through the crimpers and through two pearls. Pull the Tiger Tail to ensure the threaded pearls are tight, then press the crimpers down. Cut off any excess Tiger Tail.
