

You Will Need

- **Felt**
- A few metres of ribbon
- A wool needle
- Sharp scissors
- A seam ripper (optional)

DIFFICULTY ●●●

Painted sticks can be used to brighten up a mantelpiece, can be placed in a vase instead of flowers, hung as a mobile, or just painted for the fun of it.

INSTRUCTIONS

Step 1: Cut out heart shapes from felt pieces, and using the pointed end of a seam ripper make an even number of vertical slits across the heart – 4, 6 or 8. Keeping the slits even allows the ribbon to enter and leave the heart on the front (or back).

Step 2: Thread the wool needle with the ribbon and weave it in and out of the slits in the hearts, gently pulling each heart along so they are evenly spaced.

Hang the garland and enjoy!
