

#949

Celtic Yarn

Chunky Scarves

You will need

**8 x 50g balls of Celtic yarn by Lincraft OR
6 x 50g balls of Prism yarn by Lincraft)**

25mm knitting needles

Tape measure

Yarn needle

Large crochet hook

This easy and quick to knit chunky scarf is knitted using 4 strands of yarn together as one (if using Celtic) or 3 strands together as one (if using Prism).

Tip: Make sure you pull the working threads from the inside of the balls not the outside.

This will ensure the working balls do not get tangled as you work.

MEASUREMENTS:

Finished scarf (excluding fringe) measures approximately 170cm long x 23cm wide.

TENSION:

Using 25mm needles 5 sts wide x 6 rows over 10cm x 10cm stocking stitch.

Fringing

Cut yarn into 56 lengths, each measuring 30cm long.

Tip: Cut this evenly from all 4 working balls instead of just one ball. This means that halfway through the scarf all 4 balls will roughly finish at around the same point making it easier to change to the new

balls and not wasting too much yarn. If using Celtic, with 4 strands together as one, cast on 15 sts. If using Prism, with 3 strands together as one, cast on 15 sts.

1st row: Knit

2nd row: Purl

These two rows form pattern (stocking stitch). Repeat these two rows until all yarn is used up, leaving a tail long enough to allow for cast off. Cast off.

Making up

Sew in loose ends. Divide the fringe lengths into 14 groups of 4. Fold a group of 4 lengths in half forming a loop. Pull this loop through the end of the scarf with the crochet hook.

Bring the ends of the group up through the loop and pull firmly to make fringe.

Add 7 fringes evenly spaced to each end of the scarf. If necessary, lightly press the fringe with a cool iron to straighten.
