

How to make

Project # 958

Matching Hatinator And Bag

Instructions

You Will Need

- 2 x 16cm round fascinator bases
- (2 coordinating colours - we used red & black)
- 1 Sinamay bag to match one of the colours of the bases (red or colour of choice)
- 2mts of narrow sinamay ribbon (black or colour of choice)
- 2 large flowers (we used red/black velvet)
- Hot glue gun
- Hand sewing needle and thread

Hatinator

Using the needle & thread sew the two bases together so that one overlaps the other 3/4 the way across. Fold the sinamay ribbon into 4 loops and hold with a few stitches in the centre. Using the glue gun, glue these loops to the side of the hatinator then glue the flower over this. Cut a few more short lengths of sinamay ribbon on an angle and using a small amount of glue, poke in behind the flower.

Bag

Making the sinamay loops and flower in exactly the same manner as for the hatinator, glue to the front of the bag, where desired.
