

REQUIREMENTS

- Creative Mates Colour Bands
- 1 loom
- 1 hook
- 1 S-clasp
- Creative Makes Charms

DIFFICULTY ●●●

INSTRUCTIONS

Step 1:

Twist first colour band into a figure 8 on the loom.

Step 2:

Place two more bands on the loom so there are a total of 3 bands on the loom (1 figure 8 and the others placed on normally).

Step 3:

Using the hook, remove the bottom band from the pins so it is resting on the top of the bands that are stretched between the two pins. You will most likely have to push down the bands on the pins.

Step 4:

Place the next band on the pins. Repeat step 3 by removing the new bottom band from the pins so that one is also resting on top of the bands stretched between the pins.

Repeat steps 3 and 4. The fish tail bracelet will begin to lengthen and "feed" from the bottom of the pins.

Step 5:

When the desired length is reached, carefully add the S-clasp to both sides of the bands that are around the pins. (There will be 4 band loops that will be placed onto clasp, otherwise it will come apart.)

Step 6:

Close bracelet by looping on other end of S-clasp.

Step 7: Once you have completed the bracelet, attach the charm by separating the split ring, guiding through two bands and re-joining the split ring.
