Helpful Hints

- A paint pen can be used instead of a dry erase marker for a longer lasting words. Just use water and a cloth to scrub it off.
- Cuttings can shift during crafting. This can be patched after the first coat of Mod Podge dries.

STEPS

1. Pop out the back of the picture frame.
2. Cut the card stock to fit inside the frame.
3. Use the die cutter to cut out a small handful of hearts from several shades of coloured paper.
4. Stick the hearts to the card stock using Mod Podge. Overlap the hearts so they cover the card, creating a collage.
5. Coat the collage in Mod Podge to secure the cuttings. Allow to dry.
6. Place the lettering stencils in the desired formation on top of the collage.
7. Use paint and a brush to fill in the stencils. Allow to dry.

8. Place the completed collage inside the frame and secure the back.
9. Write your message on the glass in dry erase marker.
