Lincraft

Painted Lady Vase

#A729

DIFFICULTY ●○○

Approximate Time of Project: 1 hr (drying time not included)

MATERIALS

Glass vase
Makr paint

EQUIPMENT

Paint palette
Makr paint brushes
Container (for mixing)

HELPFUL HINTS

- All paint will be going on the inside of the vase so it gives a clean, polished look on the outside. This means that the inside of the vase is not waterproof.

STEPS

1. Paint the eyelashes on the inside of the vase. Allow to dry after each step to prevent smearing of the paint as this is an awkward angle to paint at.
2. Paint the lips on the inside of the vase below the eyes. Allow to dry.
3. Mix your main paint colour with a small amount of water so it can be poured.
4. Pour the white paint inside the vase and tip the vase so the inside is coated in paint.
5. Hold the vase upside down to drain excess paint. Allow to dry.
6. Place dried flowers or a potted plant in the vase to display.
