make

Lincraft

Felt Garland

#A740

DIFFICULTY ●○○

Approximate Time of Project: 1 hour

MATERIALS

A4 felt (many colours)
Cord

EQUIPMENT

Fabric scissors

HELPFUL HINTS

- This project can be time consuming. We would recommend cutting all your felt and knotting it around the cord in front of the TV.
- We did ours in random colours but it would look just as good in fewer or single colours.
- 10 sheets of A4 felt will give you roughly 1.5m of garland.

STEPS

1. Cut the felt sheets into roughly 2x20cm strips.
2. Double knot each strip of felt around the cord. Push them close together as you go.
3. Continue knotting the felt around the cord until all the strips are attached.
4. Tie a loop in each end of the cord to stop the felt from falling off the ends.
5. Hang the garland from the loops or drape it around objects to decorate.
