Double Ring Macrame

#A765

DIFFICULTY ●●○

Approximate Time of Project: 1 hour

MATERIALS

ARBEE silver ring 100mm
 ARBEE silver ring 300mm
 MAKR Natural Macrame Cord
 Dye
 MAKR Fabric Stiffener

EQUIPMENT

Scissors

ABBREVIATIONS

- RLK – Reverse Larkshead knot
- HK – Half knot
- SK – Square knot
- DHH – Diagonal Half Hitch

1. Cut 21 lengths of macramé cord at 3 metres each.
2. Dye four cords yellow and four cords pink. Allow to dry completely before using.
3. Using RLK, tie 6 undyed cords around the small silver ring.
4. Using the undyed cord, gather 4 strands together starting from the left hand side and tie a SK, continuing with the next four cords and then the last four cords. Make sure that all four SK are the same distance from the top as each other.
5. Count cord 3, 4, 5 & 6 and make a SK. Again with cord 7, 8, 9 & 10, make another SK. Again making sure these SK's are of even distance from the previous SK's.
6. Count cord 5, 6, 7 & 8 and tie a SK
7. Now, take the very left cord as your working cord and make a DHH for 5 cords. Repeat for the very right hand side cord: 5 DHH. This will form the heart shape around the SK's.
8. Repeat step 5, step 6 & Step 7.
9. Put aside the small ring for now. This will be referred to as the "Main Design".
10. Using RLK attach the 4 yellow cords to the top left of the large ring & using the same method (RLK) attach the 4 pink cords to the top right of the large ring
11. The remaining 7 undyed cords can be attached using RLK to the top middle of the ring
12. Place the small ring on top of the larger ring approximately 7.5cm (3") down.
13. Starting with the top 2 yellow cords, thread them over and around the small ring. Then work diagonally across to the right of the large ring and attach with RLK.
14. Similarly, start with the top 2 pink cords, thread them

STEPS

- over then under and around the small ring. Then work diagonally across to the left of the large ring and attach with RLK.
15. Continue with the yellow & pink cords weaving under and over as you go. Tightening them with force to create taut, neat pattern.
 16. Trim all coloured cords to 8cm in length. Keep the trimmed ends for later.
 17. Use 2 of each colour of the remaining dyed cords to attach to the bottom of the large ring.
 18. Bring the natural cords behind the entire design and attach using RLK to the base of the ring, alternating with the dyed cords.
 19. Using the 2nd natural cord and the 3rd natural cord from the left, create 16 x HK's around the 2 pink cords that should naturally twist around.
 20. Repeat on the right side with the yellow.
 21. Attach a length of dyed cord approximately 25cm in length (from the lengths you previously trimmed) to the end of the HK's using RLK.
 22. With the remaining pink (and yellow) cords. Make the leaves by using the RLK on alternate sides of the 25cm cords.
 23. Unravel and fluff up the cords on the leaves. You may find it easier to do a preliminary trim.
 24. Apply the fabric stiffener to the leaves and allow to dry completely
 25. Trim the stiffened cord into leaf shapes.
 26. Counting the next 4 cords along to the right of the pink leaf, tie a SK. Repeat on the right hand side of the Main Design; left of the yellow leaf. These SK should be around the inner 2 dyed cords.
 27. Taking the last 2 natural cords from the top of the ring add these to the 2 natural cords of the main design and tie a SK. Repeat on the right hand side.
 28. The inner 4 cords on either side on the Main Design can be tied into a SK. Making sure that all four SK's are level across from each other.
 29. Taking the middle left cord as your working cord, tie 8 x DHH to the left. Repeat on the right side.
 30. The middle 4 cords of the Main Design can be tied into a SK.
 31. Continue the SK to the next 2 x 4 cords to the right and to the left.
 32. Using the 2 middle cords from the 2nd and 4th SK, tie an infinity knot.
 33. Bring the very middle 4 cords from the middle SK, behind the infinity knot and tie a SK.
 34. Using the 2 cords from the infinity knot on the left & the 2 cords next to it from the very left SK, tie a SK. Repeat on the right side.
 35. Take the very left cord as your working cord and tie 8 DHH. Same with the very right hand cord as your working cord, tie 8 x DHH.
 36. Trim Main Design natural cords into a V shape.
 37. Hang to display.
