Pipecleaner Bunnies

EASY

DIFFICULTY ●●●

Approximate Time of Project: minutes

MATERIALS

Large wooden beads
Medium wooden beads
Small wooden beads
Chenille sticks

STEPS

1. Thread the small bead onto the middle of the chenille stick. Twist the chenille stick once right next to the bead to hold the bead on. This will be the tail.
2. Thread both ends of the chenille stick through the large bead then the medium bead. This is the body and the head.
3. Use the remaining length of the chenille sticks to create two loops and stick the ends into the top of the head.
4. Take a second chenille stick and create two loops.
5. Twist the two loops to secure and wrap them around the space between the tail and the body. These are the feet.
