Floor Cushions (Circle & Square)

INTERMEDIATE

DIFFICULTY ●●●

Approximate Time of Project: 30 minutes

MATERIALS

Sweetie Twills fabric (90x160 per cushion)
Cord piping
25mm bias binding (4m for circle, 5m for square)
Thread
Soft fill

EQUIPMENT

Scissors
Iron
Ironing board
Pins
Zipper foot
Sewing machine
Sewing needle

CUT LIST (5mm seam allowance included)

Circle Cushion:

Two 61cm circles (TOP & BOTTOM)
Two 95x13cm rectangles SIDE

Square Cushion:

Two 61x61cm squares (TOP & BOTTOM)
Two 121x13cm rectangles SIDE

**STEPS**

1. Make the piping;
 - a. Iron the bias binding open and flat.
 - b. Place the cording in the centre of the bias binding on the wrong side.
 - c. Fold the binding over the cord and pin in place with the ends of the binding touching.
 - d. Baste the cord in place close to the binding by hand.
2. Pin the binding around the TOP piece on the right side with the raw edges touching.
3. Use the straight stitch presser foot to baste the piping to the TOP piece. Overlap the ends on the side to taper them into the seam and hide them.
4. Repeat the above for the BOTTOM piece.
5. Sew the two rectangles together to create one 190x13cm (for the circle) or 241x13cm (for the square) strip.
6. Pin the SIDE around the edge of the circle TOP piece right sides together.
7. Use the zipper foot to sew as close to the piping as possible.
8. When you reach the end of the strip pin the 13cm ends together and sew.
9. Repeat from 2e with the remaining raw edge of the SIDE strip and the BOTTOM piece. Leave a 10cm gap around this edge.
10. Clip the curved edges or corners and turn the cushion right side out.
11. Stuff the cushion through the 10cm gap left.
12. Use a mattress stitch to sew up the gap so it is not visible.
