MAYD Reusable
Fabric Gift Wrap
HOW TO MAKE

MAYD Reusable Fabric Gift Wrap

DIFFICULTY: Intermediate

Approximate time of project: 15 minutes

MATERIALS

MAYD Reusable Fabric Gift Wrap

HELPFUL HINTS

There is no 'wrong' way to use the fabric wrap - instead there are multiple ways of doing so. The following are merely two suggestions, but feel free to experiment and you might even come up with your own creative spin!

HOW TO WRAP A BOX

- Lay the fabric out in a diamond shape in front of you, with the pattern side face down
- Place the gift box in the centre
- Take either end of the fabric and tie together over the top of the box
- Pull tightly and tie twice to create a double knot
- Do the same with the other ends, over the top of the first knot
- If your box is quite small, tie another knot on top to shorten the ends
- Fluff out the ends twisting them to make sure the patterned side of the fabric is facing upwards

HOW TO WRAP SOMETHING ROUND

- Lay the fabric out in a diamond shape in front of you, with the pattern side face down
- Fold two sides in towards the middle so that the ends meet at the centre point of the fabric
- Place your present upright in the middle, so that it sits on the ends and holds them in place
- Gather the side corners together
- And bring them up and together so that they meet at the top of the gift
- Hold this together with one hand, while you twist one of the longer edges and wrap it around this gathered fabric
- Keeping the fabric taught, do the same with the other side and bring this up so that they meet at the top
- Loop around the gathered fabric and tie tightly in a double knot
