Snow Man
Christmas Bauble

easy

DIFFICULTY ●●●

Approximate Time of Project: 1.5hours

MATERIALS

Shatterproof bauble 70mm
Gloss varnish
White glitter
Orange glitter
Joggle eyes
Carrot nose
Black foam sheet
Black ribbon
Metallic ribbon
String blings
Holly sticker
Snowman hat template

EQUIPMENT

Glue gun
Scissors
Paintbrush
Craft knife

STEPS

1. Start by squeezing gloss varnish inside the bauble and swirl to cover the entire inside. Sprinkle white glitter inside the bauble and evenly swirl.

2. Brush the carrot with gloss varnish and sprinkle with orange glitter. Trim the green end off and glue to the snow man along with the eyes. Use stickers to create the mouth.

3. To make the hat, print and cut the free template. Trace the template onto the black glitter foam and cut out.

4. Glue the 2 brims together. Curl the top part of the hat into a cone and glue it together. Glue the cone to the brim.

5. Pierce a small hole into the center of the top of the hat. Thread ribbon through it and tie a knot. Glue the top of the hat to the cone. Glue the brim of the hat to the bauble and decorate with ribbon and stickers.
