STEPS

Swirl Tie Dye

Step 2

Secure fabric with rubber bands crisscrossing them over the center.

Step 3

Apply a different colour of dye in each wedge created by the crisscrossing rubber bands.

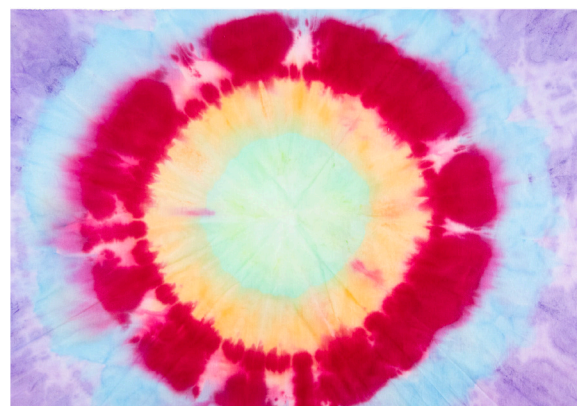

Bullseye Tie Dye

Step 1

Pinch the fabric into a tube and add as many or as few rubber bands as you want.

Apply desired dye colours to sections of the fabric.

Fold fabric in half. Draw half of a heart shape on the folded edge with a pencil.
