Lincraft

Loopz Rectangular
Cushion

#A607

MEASUREMENTS

Size	One Size	
Width	cm	100
Length (approx)	cm	30
Yarn Required:		
Lincraft Loopz	200g balls	1

DIFFICULTY ●●●

TIPS:

- No needles required
- Work on a flat surface
- Stitches are formed by pulling loops (of working yarn through loops (of project)
- Right side of work will be facing throughout. Check back of work occasionally for missed loops

REQUIREMENTS:

- Wool needle for sewing up
- 30cm x 50cm cushion insert
- Matching plain yarn for sewing up

CUSHION:

Find end of ball and unwind a length.

Snip open the first 2 loops to create a tail for weaving in later.

Count 20 loops and lay them flat with loops facing upwards.

Row 1 (right side): Working from right to left, pull a loop of working yarn through each of the 20 loops of project from back to front.

Row 2: Working from left to right, skip 1st edge loop, then pull a loop of working yarn through each of the project loops.

Row 3: Working from right to left, skip 1st edge loop, then pull a loop of working yarn through each of the project loops.

Last 2 rows form stocking stitch pattern. Continue to work loops until Cushion measures 100cm from beg.

BIND OFF:

Pull the first 2 loops of working yarn through the 1st 2 loops of project (back to front). Now, pull the 2nd loop through the 1st loop, pull a 3rd loop of working yarn through next loop, then pull that loop through the previous loop. Continue in this manner. Once row is complete and all loops except last one secured, cut working yarn and cut 2 loops open, draw yarn through last loop.

FINISHING:

Fold in half and sew side seams together (using large wool needle). Place cushion insert inside then sew remaining seam. Sew in all ends.
