Lincraft

Loopz Cowl

#A621

MEASUREMENTS

Size	One Size	
Width	cm	16
Length (approx)	cm	90
Yarn Required:		
Lincraft Loopz	200g balls	1

DIFFICULTY ●●●

TIPS:

- No needles required
- Work on a flat surface
- Stitches are formed by pulling loops (of working yarn through loops (of project)
- Right side of work will be facing throughout.
Check back of work occasionally for missed loops

REQUIREMENTS:

- Matching plain yarn for sewing up
- Large wool needle

COWL:

Find end of ball and unwind a length.

Snip open the first 2 loops to create a tail for weaving in later.

Count 11 loops and lay them flat with loops facing upwards.

Row 1 (right side): Working from right to left, skip 1st edge loop, then miss a loop and pull 2nd loop of working yarn through the 3rd project loop from back to front. Continue missing a loop and working a loop until end of row.

Row 2: Working from left to right, skip 1st edge loop, then miss a loop and pull 2nd loop of working yarn through the 3rd project loop from back to front. Continue missing a loop and working a loop until end of row.

Last 2 rows form loop pattern. Continue to work loops until Cowl measures 90cm from beg.

BIND OFF:

Pull the 1st loop of working yarn through the 1st loop of project (back to front), miss next loop and work 3rd loop of working yarn through 3rd loop of project. Now, pull the loop just worked through the 1st loop worked. Continue in this manner, skipping a loop, working a loop and then drawing it through the previous worked loop. Once row is complete and all loops except last one secured, cut working yarn and cut 2 loops open, draw yarn through last loop.

FINISHING:

Turn work over and push through all loose loops. Using plain yarn, sew beginning edge to finish edge, creating a circle. Weave ends into work, hiding amongst stitches. Trim ends.
