Halloween Bouquet

EASY

DIFFICULTY ●●●

Approximate Time of Project: 3 hours

MATERIALS

Halloween buckets
Florist foam
Purple net
Halloween roses
Deco foam balls
PVA glue
Black paint
Purple, green and orange glitter
Green chenilles
Green ribbon
Black and silver foam glitter
2x cylinder foams
Orange felt
Black ribbon
Witch shoe template

EQUIPMENT

Paintbrushes
Glue Gun/glue stick
Skewer
Pencil
Ruler
Wire cutters
Craft knife

STEPS

1. Cut the florist foam using a ruler and firmly push it into the Halloween bucket.
2. Cut the purple net into square pieces and the florist wire in half. Pinch the center of the net and wind the wire around the net in a spiral.
3. Fold the ribbon into even pieces several times. Wind the wire around the center of the ribbon and then fluff out the ribbon.
4. Pierce a skewer into a foam ball and brush it with PVA glue. Complete sprinkle it with glitter and repeat with other colour glitters.
5. For the eye, paint a black circle on a deco foam ball and place it inside the rose.
6. Twirl green chenilles around a pencil to give it a curly shape.
7. To make the witch legs, cover and glue the foam cylinders in orange felt. To create the stripes on the legs just glue some black ribbon several times.
8. To make the witch shoes, trace the template onto the black glitter foam and cut out. Glue part A&B and C&D together. Place the witch legs inside the shoes and glue E&F together. Fold G, the flap up and glue in place. Glue H&I behind J.
9. Cut 2 rectangle pieces of silver glitter foam and cut a smaller rectangle from the center of them to create the buckles of the shoes. Glue the buckles to the shoes and thread skewers into the witch legs.
10. Cut roses and leaves down to the size and start to arrange them in the bucket along with all the other ornaments.
