

how to  
make

Coloured  
storage jars

#A351

## how to make

### YOU WILL NEED

- Jars with screw on lids
- Acrylic paint in any colour (we mixed our paint with white to make pastel colours)
- Liquitex Gloss Medium
- Paintbrush
- Container to mix paint

#### Optional:

- Fiskars tag marker
- Ribbon
- Scrapbooking paper

Mix your paint colour and add an equal quantity of Liquitex medium to it. Paint the inside of your jar with several coats – allowing it to dry in between coats.

It's important to note that the paint surface may remain delicate, so it is not suitable for storing food or sharp items.

More ideas to decorate your jar:

- Stick a scrapbooking paper shape to the lid with PVA glue.
- Cut a gift tag or label using the Fiskars tag maker and attach it to the neck of the jar.
- Cover the jar lid with Washi tape.
