Bottle Gift Bags

#A250

YOU WILL NEED

- 25cm x the full width of your fabric (from selvedge to selvedge) for each bag should be wide enough to fit most wine bottles. If your bottle is very slim or fat please adjust the width
- 1 metre of fat ribbon
- A sewing machine
- Scissors

DIFFICULTY ●●●

INSTRUCTIONS

Zig Zag the edges of your fabric to stop them fraying.

Fold the fabric in half – right sides together, and run a seam down both sides.

Make a double-fold hem at the top and stitch it down to create a neat opening.

Turn the bag right side out and press if required.

Lay the bag on top of the ribbon 20cm from the base of the bag and attach it to the bag with a line of stitching very close to the edge.

TO USE

Slip the bottle into the bag, fold over the excess fabric and tie the ribbon in a bow to hold closed.

EXAMPLE

Sew ribbon in place on bag as shown.
