MAKR  
HYGGE TWIST

Cable Cardigan

EASY KNIT

This cardigan is made with one rectangular panel for the back and two rectangular panels for the front. You will knit cables along the two front panels, working from the bottom up. Sleeves are knit flat. Block panels and sleeves to shape and size before final assembly. The circular needles are used to hold a lot of stitches comfortably for the back panel, rather than used to knit circular, as the pieces are knitted flat.
