

Quilted Jacket

# how to make

This jacket is great to throw over any outfit that needs a bit of a pop. It is perfect for colder Spring days and nights or as a trans-seasonal piece great for layering. To make it we created our quilted fabric first by making putting together our patchwork squares then sandwiching thin wadding between that and calico before quilting. Then we cut out and created the pattern as outlined in the pattern. We also finished all the raw edges with bias binding instead of hemming

## You will need:

Very Easy Vogue Pattern V9133 (B)

Calico

Bias Binding

Gutermann Thread

Double Cheesecloth Fabric

Thin Wadding
