#C003

School Bag Sanitizer Pouch

Medium

**DIFFICULTY** ●●●

Approximate Time of Project: 60 minutes

**MATERIALS**

14cm x 14cm square piece of white colour dots fabric  
14cm x 14cm square piece of blue cotton fabric  
10cm piece of blue ribbon  
15cm Sullivans white hat elastic  
Blue button  
Circle ring lobster clasp  
White thread

**EQUIPMENT**

Scissors  
Sewing machine  
Needle  
Iron/ironing board  
Pins  
Pinking shears

**STEPS**

1. Use pinking shears to cut fabrics. Place white colour dot fabric facing upwards. Position the elastic to the left of the fabric with the ends hanging out over the top. Place the blue cotton fabric over the fabric and pin them together. Sew along the top.
2. Turn the fabric around, so both the wrong sides of the fabric are facing each other and press it with an iron. Top stitch the top.
3. Fold the fabric in half sideways with the right side inside. Fold the ribbon in half and insert it through the lobster clasp ring and pin it to the bottom of the raw edge with the lobster clasp ring inside the fabric. Pin and sew along the edges. Turn it right side out.
4. Sew the button 3cm below the opening. Insert hand sanitizer and loop the elastic over the button to secure it.
