Primary Colours Tote Bag
Bright and highly contrasting primary colours using bold design and basic shapes produce this funky tote. The base is reinforced with cord to give it durability and strength.
The graph works in repeats of 12.

PRIMARY COLOURS
TOTE BAG

BASE (worked in continuous rounds over 5mm cord)

Using 3.50mm hook and MC, make 121ch.

Leaving approx 15cm of cord at beg of work, add cord in and carry under sts. To add in cord, work the first step of a dc and pull up a loop. Lay the cord over the top of the st and work final step of dc with yarn over and pull through over the top of the cord.

1st round: 3dc in 2nd ch from hook, 1dc in each of next 118ch, 5dc in next ch, turn to work back along starting ch, 1dc in each of next 117dc, 2dc in next ch … 245dc.

Do not sl st or 1ch. Use a stitch marker to mark beg of each round, moving it up as each round is completed.

Take your time to straighten and gently pull cord carried under the stitches so it is hidden, and work is kept neat and flat. Rep this after every round to maintain a neat, flat base.

2nd round: Inc in each of next 3dc, 1dc in each of next 118dc, inc in each of next 5dc, 1dc in each of next 118dc, inc in each of next 2dc … 256dc.

3rd round: Inc in each of next 6dc, 1dc in each of next 118dc, inc in each of next 10dc, 1dc in each of next 118dc, inc in each of next 4dc … 276dc.

4th round: Inc in each of next 12dc, 1dc in each of next 118dc, inc in each of next 20dc, 1dc in each of next 118dc, inc in each of next 8dc … 316dc.

5th round: (1dc in each of next 3dc, inc in next dc) 6 times, 1dc in each of next 118dc, (1dc in each of next 3dc, inc in next dc) 10 times, 1dc in each of next 118dc, (1dc in each of next 3dc, inc in next dc) 4 times … 336dc.

Finish off cord leaving a 15cm tail.

Work in blo with mdc for rem.

Fasten off leaving tail for sewing.

INNER HANDLE EDGING

With right side facing, attach C1 in first missed mdc from 2nd round of Handle, sl st in each of next 67mdc, 1mdc in each of next 100ch, sl st to beg mdc.

Rep for second Handle.

FINISHING

Gently pull base cord and snip off excess carefully as close to sts as possible. Sew in all ends.

Wayuu Style Bucket Bag

With simple repeats, this pattern produces a striking geometric design. It produces a large bucket bag similar in style to the traditional Wayuu Bag. It involves working with up to 5 yarns at a time. The graph works in repeats of 8.

NOTES FOR TAPESTRY CROCHET

Tapestry crochet is a special technique that creates a multi-coloured work of art with colour changes throughout the rounds. All yarn is hidden under the working yarn allowing you to produce a neat and striking fabric with minimal ends to weave in. Highly contrasting colours work best for this form of crochet and produce stunning results.

Patterns are worked in rounds. There are no slip stitches or 1 chain at the beginning of rounds. Use a stitch marker to mark the beginning of each round, moving it up as you go. Due to how you move from round to round in Tapestry Crochet, a pattern break where one round ends and the next begins, is quite typical.

Yarn not being used is carried under the working yarn. The reverse side of the work should look similar to the front. There should be no loose yarns. Unless specified, always carry at least one of the colours under the work to help maintain the integrity of the stitches.

Occasionally give the carried yarns a gentle tug. This will help prevent some of the colours showing through the front of your work and ensure the even look of stitches.

To avoid a tangled mess, try to prevent the yarns from crossing over each other. A good idea is to place each colour/ball in its own space/container and, as you work, ensure the yarns don't cross.

For these patterns the Bases are worked in normal double crochet (dc) stitches through both loops unless specified.

The Bodies of the bags are worked in back loops only (blo) using a modified double crochet (mdc) unless specified.

The use of a **modified double crochet** (mdc) in the **back loops only** (blo) will give more of a straight vertical look to the pattern design rather than the slight slant that is common with normal double crochet.

The majority of Tapestry Crochet patterns are written with a **graph pattern** only. These are worked from the bottom up, right to left. Each square represents one stitch. Sometimes the whole graph is provided or sometimes just a section with instructions to repeat the sequence a set number of times within a round.

These graphs are designed for using the modified double crochet in back loops. While the patterns can be done in normal double crochet through both loops, this will result in a more slanted look to the pattern.

Modified Double Crochet
Work through the blo and pull through yarn, **YARN UNDER** and pull through the loop to complete the stitch. To **yarn under** place the hook over and behind the yarn strand and hook the yarn from above and pull through.

Colour change
A colour change is made on the last step before a new colour stitch. Work the stitch, yarn over and pull up a loop, ADD NEW COLOUR, yarn over or under as per the pattern directions and pull through the new colour to complete the stitch.

Add new colours at the beginning of the round to which they will be introduced. When a colour is no longer needed, finish working with it at the end of a round. This will help maintain tension and avoid bumps throughout your work.
