## FELTING

YOUWILLNEED

Sullivans Needle Felting Kit
The kit consists of a Mat which looks like a brush and a Needle felting tool.

Wool Roving
Sold by the pack.

Embroidery Floss, Buttons and Beads
All optional.

Needle Felting is a fast and easy way to apply a shape to a knitted or jersey garment. It's a great way to apply elbow pads, and you can cover stains on kids t-shirts with a larger shape for a fun and fluffy look.

Just be careful when washing as felted area may shrink further.

STEP 1
Place the felting mat under the area you want to apply the appliqué to.

STEP 2
Tease some felt roving out of the bundle. Pull it out so that the threads separate and it's cloud like – you don't want lumps as they will compact further in the felting process.

Lay the roving out into the shape you want. It's better to start with a light covering and add more to the top as you go and start felting using the tool.

Push the tool down into the brush sharply. It will penetrate the fabric and push the fibres down through to the other side.

You can add details, and use your fingernails to scrape fluffy edges in towards the centre to create a cleaner line.

You can add more colours as you go, by laying different coloured roving on the top and continuing to felt.

The felting will stay in place, and will become further embedded on washing. Embroider over the top if you like, and add beads or buttons as further embellishments.
