

YOUR SAFETY MATTERS TO US

Introducing the Doppler Lift Hygiene Solutions for safe and clean elevators.

LIFT HYGIENE SOLUTION PRICING.

PRODUCT DESCRIPTION

Touchless Lift Operation - scan the QR code with your smartphone camera. Select your destination floor and tap on call lift, your lift will arrive and take you to your destination.

UVC anti-bacterial light, (UVC Lamp) - A UVC anti-bacterial light is a disinfection system using an ultraviolet lamp, located in the elevator ceiling, that sterilizes the surfaces efficiently at 99%. The UVC lamp is clever enough to understand an unmanned cabin and has multiple working modes and customizable anti-virus cycles. This UVC anti-bacterial lamp is remote controlled and motion sensed suitable for commercial and residential elevators.
