About ADA Railings

The Americans with Disabilities Act, ADA, is the comprehensive civil rights law designed to prohibit discrimination against people with disabilities. Public and private businesses, state and local government agencies, private entities, offering any public accommodations, services, transportation and utilities are all required to comply with this law. The ADA law emphasizes handrail installation because handicapped persons use them to maintain balance, transfer weight and prevent falls. Our handrail system is the answer to a barrier free design and are required in both new and existing buildings.

KEE ACCESS Components

- ADA law compliance can be attained with “add-on” components to established railing systems
- Can be powder coated or grip taped to increase visibility and eliminate “cold to touch”
- “D” style returns eliminates clothing getting caught
- Our internal PROJECTS support team can provide individual applications and solutions to achieve ADA compliance

KEE ACCESS Basic Assembly

How these components work together to give you the most durable and flexible ADA compliant railing system available.

84-848....Upright Top Cap
508-7....Gap Washer

options

Pipe Choices

Galvanized Steel

Schedule 40 and Schedule 80; size 1/4" to 2" IPS; nominal mill lengths of 21' cut to your projects' exact length requirements

Aluminum

Alloy 6105-T5 with an anodized finish; size range 3/4" to 2" IPS; nominal mill lengths of 12' and 24' cut to your projects' exact length requirements

Powder Coating

Durable, corrosion preventing polyester coating applied to already galvanized/ anodized products; available in any RAL color

Antimicrobial Coating

Defense against the growth of potentially harmful invisible bacteria and fungi; this powder coating can be applied in a wide range of RAL colors

Modules

Pre-assembled modules for a simple and quick assembly; provides a constant barrier height. Available in a variety of sizes and styles to suit individual project requirements

In-fill Panels

Panels come in a variety of materials, sizes, and finishes. The standard 4" x 4" welded wired mesh is available in sizes up to 4' wide by 8' long. Smaller openings are available (2" x 2" or 1" x 1"). Material can be provided with a galvanized or powder coat finish, or in bare stainless steel. Virtually any custom configuration or material option is available.

Grip Tape

Improves grip of existing handrail. Grip Tape has a glow-in-the-dark feature for added safety. Yellow and black coloring is also available.

Toeboards

Our unique design does not require any drilling on site or in the shop. A slot on the back of the toeboard accepts a bolt head which prevents the bolt from spinning during assembly. Upright hardware and splice kits for corners and straight sections are also available. Toeboard comes in 24' lengths or can be custom cut.

Hi-Traction Covers

Improves footing and helps to prevent slips and falls. Suitable for indoor and outdoor use. Variety of grip options, colors, sizes, and materials. Glow-in-the-dark and custom printing available.
