- Meets compliance: OSHA 1926.501(b)(1).
- ANSI standard A1264.1-1955
- Product weight (70854): 33 lbs.
- Product weight (70855): 27 lbs.
- Product weight (70856): 21 lbs.

The Collapsible Guardrail allows workers access to full perimeter protection on a roof without damaging or disrupting building aesthetics. The collapsible guardrail system folds down easily and quickly by removing the two safety pins. No tools necessary! This guardrail system features durable hinged brackets that allow the guardrail to easily fold back and never forwards towards the roof edge. Tie Down creates every guardrail out of galvanized steel and coats it with TS22 for longevity. NextGen 3000 maintains high standards and quality control through quality raw materials and components made in the USA.
