## NEXTGEN CONTINUOUS RAILING™

### PRODUCT FLIER

NextGen Continuous Railing™ is a free-standing, non-penetrating railing system which is designed to protect roof edges, hatches, skylights and other equipment, and also create an architectural appearance. The system consists of NextGen 3000™ Universal bases and posts which support continuous top and mid rails connected by galvanized couplings. The 58-pound bases and posts are connected together with the universal base sockets. NextGen Continuous Railing™ comes standard with a galvanized finish or can be painted in your choice of 15 custom colors. This system is easy to install and exceeds OSHA standards for rooftop fall protection.

**Lightweight 58 lb. Universal Base**  
(Fits 1.9 and 1.66 OD railing posts)

**Standard Galvanized Finish**

**Continuous Top and Mid Rail**

**15 Custom Colors Available**

**Made in USA**
