## Alternate Base Options

### Toe Board Options

Toe board; Kee Klamp® Type 69. Meets OSHA's requirement for toe board. Stainless steel hardware included. Easy to install with no drilling or welding.

### Ground Socket Option

Ground Socket; Kee Klamp® Type 66. Designed for concrete installations where uprights are required to be removable. It incorporates a socket set screw fixing on top of flange and can be supplied with a plug to fill the hole when the pipe is removed.
