NEXTGEN SECUROPE™ FIXED LADDER LIFELINE

PRODUCT FLIER

The SecuRope™ Fixed Ladder Lifeline System (FLLS) acts as a moving lifeline connector for buildings, water towers, masts, and industrial applications.

This system uses stainless steel cables and adapts to all ladder types, round or square rungs. The glider opens to enable travel over upright stanchions without being removed using a twin safety mechanism.

Lifeline System Features:

- Shock absorber integrated within glider
- FLL mounts easily to existing ladder
- Standard tools needed
- Overpassing anchors
- No deformation of intermediate anchors
- Available in various and custom lengths

Lifeline System Components:

- Top anchor mount
- Cable guide
- Bottom mount
- Stainless steel cable
- QuickSet Glider
- Extension/Anchor Point

Tensioner
