

## Family Friendly airline list

---

Over 50 airlines officially approve the BedBox™!

Below is a list of family friendly airlines, where you may use the BedBox™ sleeping function. The BedBox™ has been thoroughly assessed and approved by many major airlines. Airlines such as Singapore Airlines and Cathay Pacific are also selling the BedBox™.

Many airlines do not have a specific policy towards personal comforts devices like the BedBox™, but still allow its use. Therefore, we continuously aim to keep this list up to date, based on user feedback, our knowledge, and our communication with the relevant airline.

- **BOLD:** Airlines that after a thorough review have officially approved the BedBox™
- Others: Airlines which do not have a specific policy on the BedBox™, but an overwhelming amount of our customers have had a positive experience using the product on board.

In all cases, please remember to always follow the Cabin Crew's instructions and advice, use the seatbelt when seated, and not block any exit for other passengers as shown below, and enjoy a comfortable flight to wherever you are going!
