

Hear Your Way

# Cochlear™ Nucleus® 7 Sound Processor

Karl K.  
Cochlear Nucleus recipient

Made for  
iPhone | iPad | iPod

*Hear now. And always*

**Kevin U.**  
Cochlear Nucleus recipient

## The world's first and only cochlear implant sound processor offering direct streaming, control and connectivity

With the Cochlear™ Nucleus® 7 Sound Processor you can connect with the technology and people you love with direct connectivity and control to a compatible Apple or Android™ device.\*

The smallest and lightest<sup>1</sup> behind-the-ear hearing solution combines comfort with proven hearing performance,<sup>2</sup> so you can hear your best anywhere, any time.

\* The Cochlear Nucleus 7 Sound Processor is compatible with Apple and Android devices, for compatibility information visit [www.cochlear.com/compatibility](http://www.cochlear.com/compatibility)

Connect to your world like never before

### Directly stream calls and entertainment

With the Nucleus 7 Sound Processor you can connect to the people you love and the things you love to do as you stream calls, music and entertainment from compatible Apple and Android devices.

### Smart bimodal hearing solution

If you have a cochlear implant and a compatible ReSound hearing aid\*, you can take advantage of our smart bimodal solution which enables you to stream directly to both ears for a richer hearing experience.

### Control at your fingertips

The Nucleus Smart App offers unprecedented control from your compatible smartphone. You can conveniently monitor and adjust settings, enable ForwardFocus, view personalised hearing information and even locate a missing processor.

#### Benefits of the Nucleus Smart App

Control and monitor your sound processor

View your personalised hearing information

Locate a lost Nucleus 7 Sound Processor

\* With compatible ReSound hearing aids. A list of compatible hearing aids is available online at: [www.cochlear.com/nucleus/compatibility](http://www.cochlear.com/nucleus/compatibility)

“After receiving the Nucleus 7...  
my quality of life has improved  
beyond what I expected.”

**David W.**  
Cochlear Nucleus recipient

## Experience True Wireless™ freedom

Cochlear's True Wireless™ Devices can help you hear more clearly in challenging hearing situations by sending sound directly to the sound processor without the need for anything around your neck or attached to your sound processor.

Whether it is talking on the phone, going out to dinner with friends or watching television – you'll hear better with Cochlear True Wireless technology.

Cochlear True Wireless  
Devices

A person is sitting in a light-colored leather chair, holding a black remote control. They are wearing a dark long-sleeved shirt and dark pants. In the background, there is a large window with a view of a building and a television mounted on the wall showing a person in a pink shirt. The scene is brightly lit, suggesting a living room or a similar indoor space.

“I can be up to 30 ft [9 m] away  
from the television and hear...  
without disturbing others.”

**Michael D.**  
Cochlear Nucleus recipient

## Adventure-proof solutions

The Nucleus 7 Sound Processor is our smallest and lightest sound processor, making it comfortable for even the smallest ears. And, thanks to new chip technology, you can benefit from longer battery life<sup>3</sup> to get the most out of your day.

### **Make a splash with Aqua+**

So you can enjoy your favourite water activities with confidence, the Nucleus 7 Sound Processor is splashproof.<sup>4</sup> And when worn with Aqua+ it becomes waterproof.<sup>5</sup> It is also available in a compact size, for extra comfort.\*

### **Child-friendly products and accessories**

Whether a child is swimming, riding their bike or playing at the park with their friends, they have access to durable and child-friendly products and retention accessories that keep up with their adventures as they play and grow.

**Aqua+ for the Nucleus 7  
Sound Processor**

\* Not all products are available in all countries.

“Alexa and Nico are happy, because they can chat and hear each other while they are in the pool thanks to Aqua+.”

**Brenda G.**

Mother of Alexa (Cochlear Nucleus recipient)

## Cochlear leads the way with innovations to improve your hearing performance – now and for a lifetime

The Nucleus 7 Sound Processor features dual microphone technology and SmartSound® iQ with SCAN, which is designed to automatically make hundreds of decisions to optimise your hearing performance every day, so that you don't have to.<sup>6</sup>

Our dual microphone technology helps to filter out background noise so you can hear more of what you want, especially when it's noisy.<sup>7</sup>

ForwardFocus is an additional control feature exclusively available for the Nucleus 7 Sound Processor. ForwardFocus reduces noise coming from behind you, so you can more easily enjoy face-to-face conversations in challenging listening environments such as in a café or restaurant.

### SmartSound iQ with SCAN technology:

**Speech in noise:** Have a conversation in noisy surroundings like a city street or a busy café.

**Speech:** Helps you hear speech more clearly, so you won't miss out on important information.

**Noise:** Hear comfortably in noisy situations, such as at a sports game, or while at the train station or airport.

**Wind:** Hear comfortably in windy conditions.

**Quiet:** Appreciate soft sounds in quiet environments.

**Music:** Enjoy listening to the music you love.

“It makes the day-to-day world so much easier again  
and allows me to participate.”

**Mattias B.**  
Cochlear Nucleus recipient

Combine two proven technologies to  
get back the sounds you've been missing

### Hybrid™ Hearing

The Nucleus 7 Sound Processor is also Hybrid™ ready, which means you can combine the benefits of your natural hearing with your cochlear implant to achieve even better hearing performance in difficult situations.<sup>8</sup>

Nucleus 7 Sound Processor  
in Hybrid mode

“The quality of the sound for me is very crisp, very sharp,  
very clear. I’ve never known anything like it.”

Diane M.  
Cochlear Nucleus recipient

## The Cochlear difference

Cochlear is the global leader in implantable hearing solutions. Almost 40 years after successfully launching the world's first multichannel cochlear implant, our commitment to innovation and providing hearing remains unchanged.

You are not alone. We have provided more than 550,000 implantable devices, helping people of all ages to hear and connect with life's opportunities. Wherever you are in the world or on your hearing journey, Cochlear is here to support you.

**Alexa U.**
