

OUTDOOR KID ACTIVITY

NATURE BANGLE

COLLECT TREASURES FROM THE FOREST OR EVEN WHILE EXPLORING YOUR BACK GARDEN!

LET'S GET STARTED!

1. Grab some sticky tape (or duct tape) and scissors.

2. Wrap tape around wrist with sticky side pointing out.

3. Start exploring and see what you can find to stick to your bangle!

Brown leaves in autumn, flowers in summer or sticks in winter...what will you find today?

Look at the cicada exoskeleton that 'jumped' on for a ride. Did you know that only the males make all the chirruping noises?

Feel free to print off and share!
