SILKEBORG ULDSPINDERI

PRIVATE LABEL COLLECTION

The story about

Silkeborg Uldspinderi

Silkeborg Uldspinderi which was established in 1987 draws threads back to the 1940s, when the family's first wool spinning mill was founded. Since then, raw wool has been the focus of Silkeborg Uldspinderi, and the fascination of wool as a unique natural material has remained intact over the years.

Wool has endless possibilities, because it's nature varies depending on it's geographical origins and the particular sheep it comes from. In addition, the spinning, the dyeing, the weaving and the processing that follows open up for a wide range of choices when creating these beautiful and lasting products.

Silkeborg Uldspinderi has travelled the world to find the best raw materials and cutting edge expertise.

The alpaca lives on the world's roof in the Andes, where it adapts to temperatures fluctuating from -20 degrees Celcius to +30 degrees Celcius in less than 24 hours. The alpaca's fantastic fur consists of soft airfilled fibres that insulates against both heat and cold.

Silkeborg Uldspinderi has gently transferred this unique capacity to its products together with two other special characteristics of the alpaca fibres: softness and flexibility.

Silkeborg Uldspinderi

Private label

We have always been inspired by the endless possibilities of wool and alpaca fibers in the development of new products - both for ourselves and with customers across many industries.

Today we provide plaids, scarves, cushions and fabrics to the following industries: interior, furniture, fashion, home textiles, hotels and restaurants.

Our unique knowledge of the products as well as our professionalism and tradition for good craft enable us to find and develop unique solutions together with our customers. We take pride in communicating honestly about the best solutions when using unique materials such as wool and alpaca to ensure that expectations are matched before we begin testing. Consequently, we can avoid unnecessary costs or disappointments.

A project can take many forms. You can choose to work in our standard private label collection or let our designers create a whole new design

just for you. Or everything in between; adaptations of an existing design, new color scheme, other sizes, own designs etc.

Today we also have a large NOOS (never out of stock) setup for selected products that can be delivered directly from stock. Delivery times may vary depending on season as well as quantities, but the ongoing production means that the waiting time is rarely long.

Non-NOOS items require an MOQ order and we usually deliver within 4-8 weeks. New designs have a development and delivery time of up to 16 weeks. Whatever you choose, we always start with a focused conversation about your needs and opportunities. We look forward to working with you and your company.

Scandinavian Wool

With their softness and warmth, the throws made from Scandinavian wool correspond perfectly to the Nordic climate. Naturally, Silkeborg Uldspinderi has dedicated this collection to Scandinavia.

The grey shades on the color card in this collection of natural throws are a reflection of the sheep's natural colours.

Designs marked with * are produced by order.

Danaja

Danaja, Scandinavia

Material: 100% New Wool

Dimensions: 140 x 240 cm, 85 x 130 cm*, 130 x 200 cm*, 220 x 260 cm*

Weight: 350 g/m²

We have developed a collection made from the best Scandinavian wool. It is characterized by its volume, softness and warmth.

The collection is inspired by simple, traditional patterns from the same regions as the sheep.

Wool

Wool is a unique, natural product with endless possibilities. For three generations Silkeborg Uldspinderi has handled wool, from the finest, lightest and softest qualities to coarse and heavy wool. All wool types insulate against both heat and cold. They are naturally dirt repellent and have antibacterial capacities.

The production process from raw wool to the end product requires careful handling with respect for the origins of the wool and the sheep the wool comes from.

Designs marked with * are produced by order.

Nilsen, Maria

Karin

Daria

Vika

Material: 100% New Wool

Dimensions: 130 x 200 cm

Weight: 350 g/m²

Vika is woven in 100% wool.

This is a simple uni colour throw, with a range spanning all the shades of rainbow, which makes it easy to match any interior.

Colour no :

Karin

Material: 100% New Wool

Dimensions: 130 x 200 cm

Weight 210 g/m²

Karin is a double faced quality. This means that it has both a neutral white and a coloured side which appears beautifully when the throw is in use.

The yarns blend in a slightly flecked expression which brings the throw to life neatly.

Colour no:

Daria

Material: 100% New Wool

Dimensions: 130 x 190 cm

Weight: 345 g/m²

Daria is a modern version of the classic herringbone woven throw.

The quality is silky and soft in 100% wool which falls neatly. Unlike most wool throws, the Daria has not been brushed after weaving. This gives the throw a clean feel, where the shades and patterns appear clearly.

Maria

Material: 100% New Wool

Dimensions: 130 x 190 cm

Weight: 260 g/m²

Maria is a clean mix of classic checks and colour block design. The colours blend when woven together in large solid blocks. The expression changes across the surface, when the different colours meet and blend into new shades.

It is woven from 100% worsted wool yarn in a nice warm and soft quality.

Nilsen

Material: 100% New Wool

Dimensions: 130 x 190 cm

Weight: 280 g/m²

The Nilsen throw is a contemporary minimal design with only 3 slanted lines crossing the otherwise solid surface.

It is double faced, showing different colours on each side which means that you can use it for either a strong colourful expression or pare it down, showing the more subdued side.

Baby Alpaca

The alpaca fibres are carefully divided in different categories dependent on their fineness. The finer and thinner the fiber, the higher the quality. Contrary to what one might think the term Baby Alpaca has nothing to do with the age of the animal, but simply names how thin and flexible the fibre is.

We have chosen to use both Baby Alpaca and Premium Baby Alpaca. The Premium Baby Alpaca is the finer of the two, consisting of the finest and softest fibres.

Designs marked with * are produced by order.

Amanda, Diamond

Amanda, Solid

Amanda, Checks

Amanda, Solids

Material: 100% Baby Alpaca

Dimensions: 130 x 200 cm

Weight : 210 g/m²

Amanda in solid colours is one of our most popular throws and a permanent part of the collection.

Despite their light weight, the alpaca throws are warm because of their special air filled fibers.

Our alpaca comes from the Andes Mountains in Peru, where the processing of the fiber is a craft passed down through generations.

Available in pure solid colours and melanges.

Melanges:

Solids:

Amanda, Diamond

Material: 100% Baby Alpaca
Dimensions: 130 x 200 cm
Weight: 210 g/m²

Diamond is a classic throw woven in pure baby alpaca. The fibers from the incredible alpaca provide outstanding quality with effortless ease, softness, and warmth.

The design is a combination of old Scandinavian patterns and the Incas years-long crafting traditions.

Colour no:

Amanda, Chess Check

Material: 100% Baby Alpaca

Dimensions: 130 x 200 cm

Weight: 210 g/m²

Chess Check is a popular throw woven in pure baby alpaca, which gives a soft and luxurious feel.

The alpaca lives in the mountain climate of the Andes, where the temperature is high in the day and low at night. Its airy fibers ensure a constant comfortable temperature.

Premium Baby Alpaca

Pedro

Patricia

Pedro

Material: 100% Premium Baby Alpaca

Dimensions: 130 x 200 cm

Weight: 210 g/m²

Pedro is woven in Premium Baby Alpaca, which is the very finest quality within the alpaca fibers. The alpacas live in the ever-changing weather conditions of the Andes with warm days and cold nights, where the small air-filled fibers keep the temperature stable.

The Premium Baby Alpaca fibers have an impressive softness, which is beautifully emphasized by the design – a classic and very delicate herringbone pattern.
