

GARLIC FOR NATURAL FLY CONTROL

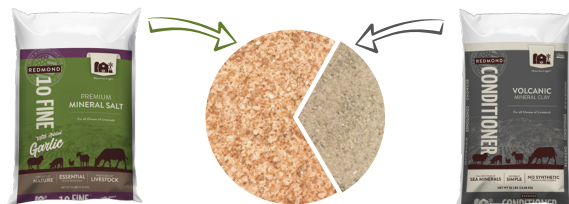

with REDMOND

Getting a jump start on fly season will save you and your animals pain. Redmond 10 Fine with Garlic is a smart, safe, and effective choice to give your cattle as a garlic supplement. It comes in a natural, loose mineral sea salt that your animals naturally crave and already love, with the added benefit of powerful fly prevention.

HOW TO USE 10 FINE WITH GARLIC

- Offer free choice or mix in with rations
- Start at least 3 weeks before fly season, offer year round
- Offer to all classes of livestock to reduce biting flies, lice, and ticks (follow species feed rates)
- For best results, mix 2-3 parts 10 Fine with Garlic and 1 part Redmond Conditioner

WHY USE 10 FINE WITH GARLIC

- Delicious sea minerals and pest prevention all in 1 product
- Naturally repels biting flies, ticks, and lice
- Doesn't fade in efficacy over time (insects do not increase their resistance to garlic like they do with other fly repellents)
- Perfect for organic and traditional herds
- Won't affect milk flavor (garlic compounds naturally metabolize through the breath and hide)
- Longer shelf life than other garlic supplements
- 12x more potent than garlic powder

WHAT CUSTOMERS ARE SAYING

“ This was my first time using the mineral plus garlic for fly control. My cows all ate it free choice and it has seemed to work awesome. Very few flies since introducing this product. Would definitely recommend and will be reordering soon. -Tameron V.

My cows and horses love the salt and I have seen a tremendous reduction in flies. -Lazy Bee Farms

In just a manner of days I have been able to see a noticeable change in the amount of insects around the livestock. It is doing as promised. Very happy with their product. -James H.

”

WANT GARLIC PLUS FORTIFICATIONS?
