Quality

We use the highest of industry standards for orders of all sizes. Our heating and extraction practices are the same for one lipstick as they are for 500. We use high quality silicone molds to ensure all lipsticks have a consistent and shiny finish, and melt / pour at appropriate temperatures to ensure the integrity of all lipsticks, with further quality control tests done before orders are shipped.

Production Time

Depending on order size, we can typically send out orders within 3-5 business days. This means that you do not need to stock huge inventory to fulfill orders.
