Aaranyam Natural Cosmetic Pvt Ltd

Shampoo bars are natural conditioning shampoos in a solid bar form. We also want to decrease our environmental impact by getting rid of plastic bottles

Shampoo bars contain carefully selected ingredients that promote a moisturized scalp and well-conditioned, shiny hair. Most people find benefits to switching to a shampoo bar such as increased volume, faster growing hair, reduced dandruff, shinier hair and less frizz. Shampoo bars are good for all hair types and hair lengths. Our gentle shampoo bars do not strip hair of natural oils allowing hair to retain moisture while balancing hair oil production. Ingredients: Each of our shampoo bar selections contains a different blend of natural plant oils, essential oils, and herb infused oils. Each shampoo bar recipe is different and unique.

Directions to use: wet your hair with water, and rub the shampoo bar onto your hair. This will generate sufficient lather to clean your hair. Repeat the process if required.
