

ConExtra Container Shelf Bracket: Adjustable, 3-Tier (14.875")

SB3108
 ConExtra Container Shelf Bracket:
 Adjustable, 3-Tier (14.875")

SB3108 Assembly

Single Unit Weight: 14.7 lbs

Hole Configurations

Backbone: SB1280 at 80" long with 16 Holes

SB3108 ConExtra Container Shelf Bracket: Adjustable, 3-Tier (14.875") was designed for ultimate flexibility when configuring shelving space in a shipping container. This modular system allows the user to mix and match various assemblies. The SB3108 is sold as a single 3-tier unit and includes (1) 80" backbone and (3) bracket arms. At minimum, two units are required to build one shelf system. The system is designed to utilize (2) 2 x 8's to create shelves that are 14.875" deep.

This system requires no tools to install, no modifications to the container and can be used time and time again.

Individual bracket arms are rated at 600 lbs., each with a total maximum bracket load of 1200 lbs. A two-bracket shelf provides a gross capacity of 2400lbs.

**Uses (2) standard 2" x 8" boards as shelves (sold separately).
Pressure Treated lumber is not recommended.*

Purchased Product Includes:

- (1) 80" Steel Vertical Backbone with 16 pre-milled holes for multiple shelf height and depth configurations
- (1) Steel T-shaped Stabilizer
- (3) Steel SB3108 single arm adjustable shelf brackets with ringpins

ALL DIMENSIONS AND WEIGHTS ARE NOMINAL AND SUBJECT TO MINOR VARIATIONS THAT MAY OCCUR DURING THE MANUFACTURING PROCESS
