

## ConExtra Bike Rack: Adjustable Bracket Half Height (37")

**SB6121.4**  
ConExtra Bike Rack:  
Adjustable Bracket Half Height (37")

Single Unit Weight: 7.25 lbs

**SB6121.4 ConExtra Bike Rack: Adjustable Bracket Half Height (37")** for Containers (Half Height) was designed to provide additional flexibility to container organizational systems. This model utilizes 1" rigid conduit as a support for hanging apparel or full-size bicycles. The SB6124.4 is sold as a single 1 tier unit and includes (1) 37" backbone and (1) bracket arm. At minimum, two units are required to build one pipe rack system.

This system requires no tools to install, no modifications to the container and can be used time and time again.

Individual bracket arms are rated at 600 lbs. each with a total maximum bracket load of 1800 lbs.

*\*Uses (1) 1" Rigid Conduit as support bar (sold separately)*

### **Purchased Product Includes:**

- (1) 37" Steel Vertical Backbone with 7 pre-milled holes for multiple shelf height and depth configurations
- (1) Steel T-shaped Stabilizer
- (1) Steel SB6124.4 single arm adjustable pipe rack with ringpins
- (3) Steel S-Hooks
