

# Rainbow Ornaments with *ACTIVA* Scenic Sand

Designed by Anima Prabhakaran of Guide Central

## Supplies

ACTIVA Products Scenic Sand in rainbow colors  
Plain plastic/glass ornaments

OK, This must be the simplest ornament I ever made by myself. And trust me it is unbelievably simple but a lot of fun to do especially if you have kids. And the DIY makes such a pretty mess. I used ACTIVA Products Scenic Sand, which is great to work with.

First step is to remove the caps from the ornaments.

Now cut the corner of the sand bag and pour the sand in the ornament.

If you have a funnel it is easier to pour the sand out. I just cut the corner of the pocket really small.

Designed by Anima Prabhakaran of Guide Central

Now put the cap back on the ornament and give it a nice swirl so that sand spreads around the ornament. The scenic sand has a subtle shine - so this way tiny particles would sparkle with the tree lights on.

Add the cap back on. The sand is not heavy, but as a precaution I did glue the cap with E6000 glue just in case it comes off.

To add a little punch, cut some leaves and put them inside the ornament - You can add any little figurines or rocks to decorate.

Pretty, right!?
