

Instructions

(Adult Supervision Required)

1. After removing the pumpkin pulp and seeds, print this template and tape it to your pumpkin where you want your carving to go.

2. Use a toothpick, golf tee or jack-o'-lantern poking tool and poke through the border of the shapes about every 1/4". Once all features have been outlined, remove the paper template.

3. Use a knife to carefully cut and remove each shape.

4. Find a fun place for your jack-o'-lantern and put a flameless candle inside. Tag pics with @otiemart on Instagram!
