

AUTOMATIC THROWER FUZE

For Do All: FireFly, Fowl Play and Raven

DOES MY AUTOMATIC THROWER HAVE A FUSE?

The Following Throwers
Have Fuses:

Fowl Play 2.0/3.0

Raven 2.0/3.0

FireFly

USA Clay

Aerial Assault 5.0

The Following Throwers **Do Not**
Have Fuses:

Aerial Assault 1.0/2.0/3.0

White Quail

White Wing

Double Eagle

White Pheasant

Raven 1.0

Fowl Play 1.0

I HAVE A FOWL PLAY OR A RAVEN HOW DO I KNOW IF IT IS A 1.0/2.0/3.0?

Does your thrower have a red indicator light near the on off switch?

Does/did your thrower have a safety pin?

If your thrower has/had a safety pin and a red indicator light you have a 1.0 and it does not have a fuse.

If your thrower has/had a safety pin but no red light near the on/off switch you have a 2.0 you have an inline fuse.

If your thrower did not come with a safety pin you have a 3.0 you have an automotive fuse.

Red Indicator Light

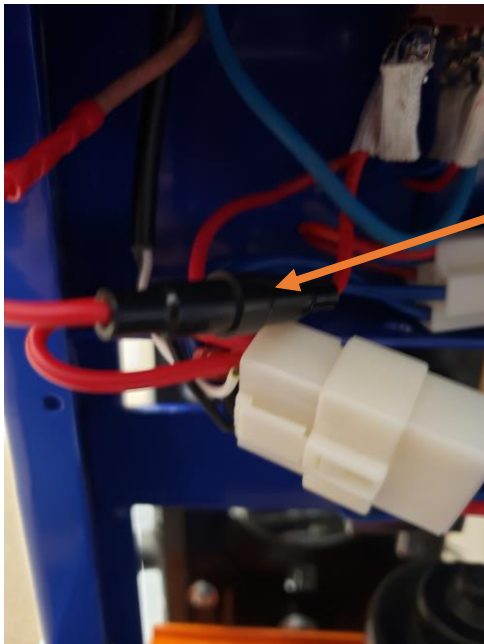

Safety Pin is located here

I HAVE A FOWL PLAY 2.0 OR RAVEN 2.0

Your machine has/had a safety pin on it, but it does not have a red light near the on/off switch you have the 2.0. You have an INLINE FUSE.

The location of this fuse is in a black connector about 2 inches long under the frame of the thrower. It has a red wire going in and out of the connector.

Unscrew the connector and the Fowl Play will have a 10-amp 5x20 mm glass fuse. The Raven will have a 15-amp 5x20 mm ceramic fuse.

Inline Fuse located here.
(This is under the main
frame toward the back
of the machine)

Fowl Play
2.0 Fuse

Raven 2.0 Fuse

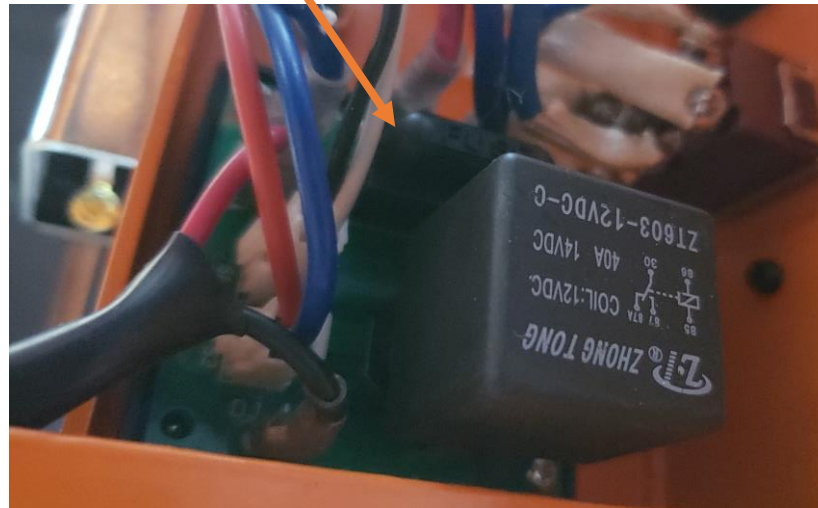

FUSE FOR A FOWL PLAY 3.0, FIREFLY, RAVEN 3.0, USA CLAY AND AERIAL ASSAULT 5.0

For the Fowl Play 3.0, FireFly, Raven 3.0, USA Clay and Aerial Assault 5.0 you have a 15-amp automotive fuse.

It is located under the main frame on the circuit board. You will need to remove the black cover to get to the fuse.

Fuse is located here

15-amp
Automotive Fuse

HOW TO ORDER A FUSE
