

### Specifications

Model	TPC400Z
Engine	Hatz Diesel 1B40
HP	9.3
kW	7.5
Compaction of Cohesive Soils	23.5"
Compaction of Granular Soils	29.5"
Plate Size	36" x 26"
Compaction Force	11,240 lbs/ft <sup>2</sup>
Max Gradeability	30 Degrees
Vibration Frequency	70 Hz
Travel Speed	85 ft/min
Operating Weight	904 lbs
Package Dimensions	61" x 41" x 35"

The TPC400Z Reverse Plate Compactor, powered by the incredible 9.3 HP Hatz 1B40 Diesel Engine, effectively prepares surfaces for road repair, pavement, pipeline applications, and trenchwork - with an incredible compaction force of 11,240 lbs/ft<sup>2</sup>. Designed with a 36" x 26" plate, compact cohesive and granular soils at a maximum travel speed of 85 ft/min, while working within narrow trenches and corners. Best suited for professional contractors and rental companies alike, the TPC400Z is backed by a 3-year engine warranty, on top of a 1-year product warranty.

### FEATURES

- 9.3 HP Hatz 1B40 Diesel Engine
- Compaction force of 11,240 lb/f
- User friendly hydraulic drive system
- Travel speed of 85 ft/min in forward and reverse
- 36" x 26" plate works around narrow trenches
- Heavy duty engine enclosure for harsh conditions
- Lifting hook for greater mobility
- 3 Year Engine Warranty
