

Lynx Professional Griddle Plate - GP (Griddle Plate)

Key Features

Large cooking area of 165 square inches for bigger quantities or a combination of foods

- Constructed of thick stainless steel delivering consistent heat across the surface and easy cleaning
- Four feet grip the grill grates to prevent slipping while cooking
- Two inch high sides prevent grease splatters from causing flare ups
- Construction is angled 5 percent front to rear to prevent spilling

Making breakfast on your grill is possible with this Lynx GP Griddle Plate. The perfect outdoor kitchen accessory, this griddle is made of thick stainless steel for durability and easy cleaning and delivers consistent heat across the surface. The four feet firmly grip the grill grates so the plate will not shift while scrambling or flipping. The plate is angled 5 percent front to rear to prevent spillage and the sides are two inches high to prevent grease splatters which cause flare ups. The grease trough in the front of the unit promotes a clean surface. The 165 square-inch surface provides plenty of space for your breakfast foods and other foods, such as quesadillas, crepes and more. Fire up the grill and try something new with this Lynx Stainless Steel Griddle Plate.
