

INNOVATION AND INSPIRATION ON FIRE™

TWIN EAGLES

ENGINEERED
FOR PRECISION.
DESIGNED
FOR STYLE.

STEP INTO AN AFICIONADO'S OUTDOOR KITCHEN.

Admire the sleek, luxurious, meticulously engineered grill, as beautiful as it is high performance. The man behind our stylish innovation: award-winning engineer and designer, Danie Cantal, natural-born inventor, passionate visionary of the grill and founder of Twin Eagles, with three decades of experience perfecting the finest culinary equipment behind his stellar reputation.

INNOVATION AND INSPIRATION ON FIRE™

ARTFUL.
INNOVATIVE.
STYLISH.

GRILLING
PERFORMANCE.
DESIGN
PERFECTION.

Get up close and personal. You'll appreciate the unique styling, precisely cut and shaped by our master craftspeople from the finest stainless steel. Interior designers and architects applaud the elegant lines of our premium grills, with their exquisite geometry and polished accents. You'll love the prestigious, innovative designs – the outdoor cooking equipment you deserve, surprisingly attainable.

GOOD TIMES. GREAT GRILLS.

At Twin Eagles, we listen to our dealers and customers to learn how we can make our products smarter, simpler, more efficient and fun to use. We want you, your family and friends to enjoy grilling, eating and spending time together as much as we do – making memories that linger long after the grill cools down.

TWIN EAGLES PREMIUM GRILLS.

Here's where it all comes together in our sleek, gorgeous grilling machines. Choose one of our four built-in gas grills, depending on your preferred size and whether you want to include our finely-tuned Concealed Rotisserie System or a Sear Zone. Each grill features our innovatively engineered Five-Part Grilling System, designed for the ultimate grilling synergy.

BUILT-IN PREMIUM GRILLS

TWIN EAGLES PREMIUM GRILLS.

GRILLING PERFECTED.

Twin Eagles offers you several unique features that together deliver unparalleled performance. Look to the engineering details for the secret sauce in Twin Eagles' grilling perfection – the culmination of decades of experience and innovation by our masters of engineering and design.

 **Internal Halogen Lights** perfectly illuminate nighttime grilling.

 **Extra Large 3-Position Warming & Cooking Rack** allows you to move the rack up and out of the way without removing it from the grill (in stowed position as shown here). Additional rack positions include warming and indirect cooking.

 **Rear Infrared Rotisserie Burner** delivers intense heat and guarantees delicious results for your rotisserie cooked foods.*

 **Heavy-Duty, Stainless Steel Rotisserie Rod & Forks** supports food weight when cooking for large parties.*

 **Hexagonal Cooking Grates** retain and conduct heat more efficiently into the food. We design the grates to afford generous surface contact with food, leaving sear marks that are hard to resist. See the Ultimate Grilling System on page 14 for details.

 **Grill Light Switch** automatically turns off the internal halogen lights when the lid is closed, adding longer life to your lights.

 **Control Illumination Switch & Concealed Rotisserie Switch*** features flush design and illuminated bezels.

*rotisserie model only

UNPARALLELED
PERFORMANCE.
IT'S ALL IN THE
DETAILS.

Exclusive Control Illumination features a highly visible graduated line that glows indigo blue. A control knob indicator notch illuminates to give a precise control knob setting.

High-polished Accents reflect the exquisite design and luxurious reinforcements of your grill and accessories.

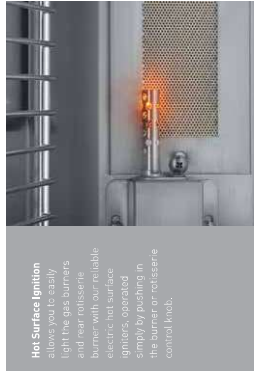

The Grill Hood Assist System makes it easy for you to open and close the hood by reducing the weight load with hidden heavy-duty expansion springs.

Concealed Heavy-Duty Rotisserie System features a fully integrated motor with 100 lbs. turning capacity. A unique chain-driven design provides precise and powerful torque on the rotisserie rod, and two rotisserie rod positions to keep foods the proper distance from the burner, producing exceptional results.

Rotisserie Rod Storage conveniently located in grill's drip tray handle for easy access.

Hot Surface Ignition allows you to easily light the gas burners and rear rotisserie burner with our reliable electric hot surface igniters, operated simply by pushing in the burner or rotisserie control knob.

25,000 BTU, 14 Gauge, 304 Stainless Steel **Burners & Zone Dividers**. Each high-performance burner is contained to control heat independently from one grilling area to another.

The Sealed Smoker Box holds soaked hickory, mesquite, or your favorite wood chips for all your flavor mavens who crave a subtle smoky taste.

THE ULTIMATE GRILLING SYSTEM

Our proprietary 5-Part Grilling System utilizes advanced technology and components designed and engineered exclusively by Twin Eagles.

This unique synergistic grilling system integrates direct and radiant heat to ensure your grill:

- Preheats faster
- Reaches higher temperatures
- Distributes heat more evenly
- Offers complete control in each grilling zone
- Uses less gas

1 DRAFTING

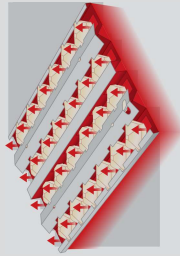

When you ignite the burners, heat rises, and creates drafting which draws clean cool air through vents located at the bottom of the firebox.

RESULT

- Keeps the heat above the burners, accelerating its movement to the cooking surface.
- Air/gas mixture remains constant for a more efficient flame.
- Eliminates stress to the burners from heat, the number one cause of burner fatigue.

2 DIRECT HEAT

Other grill systems operate solely off the principle that heat rises, which can create hot and/or cold spots. Heat will also follow the path of least resistance. Our exclusive system uses ceramic trays with channels that direct heat systematically.

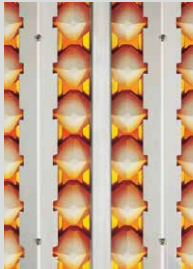

As the heat is pushed upward, it passes through ports located between the ceramic briquettes.

RESULT

- Supplies the intense heat preferred for searing and grilling.
- Preheats your grill faster.
- Minimizes gas use.

3 RADIANT HEAT

High-grade ceramic briquettes distribute radiant heat evenly to the cooking surface. A divider between each burner breaks the grilling surface into zones, so you can operate at different temperature levels or control each zone temperature independently.

Zone grilling also permits you to grill one or two items efficiently with only one burner operating. Since grilling pushes the heat upward, it's concentrated in one zone and will not spread throughout the firebox.

RESULT

- Lets you effectively operate one zone only for small volume grilling.
- Allows you to operate all zones at one temperature level or control the temperature of each zone independently to grill a variety of foods at once.

4 ZONE GRILLING

The Twin Eagles grill allows you to cook multiple food items at different temperatures. A divider between each burner breaks the grilling surface into zones, so you can operate at different temperature levels or control each zone temperature independently.

Zone grilling also permits you to grill one or two items efficiently with only one burner operating. Since grilling pushes the heat upward, it's concentrated in one zone and will not spread throughout the firebox.

RESULT

- Lets you effectively operate one zone only for small volume grilling.
- Allows you to operate all zones at one temperature level or control the temperature of each zone independently to grill a variety of foods at once.

5 HEXAGONAL GRATES

Grates on most grills serve one purpose: to hold your food. Twin Eagles grates actually aid in the grilling process by absorbing, retaining and conducting heat into your food. The surface of heavier the grate, the more heat it will absorb and retain.

We use 2/8 inch hexagonal stainless steel rods in our grates. They offer over 20% more mass than most grates and 10% more mass than 3/8 inch round rods. The increased mass retains more heat.

The flat surface of the hexagon rods creates more food-to-surface contact versus round grates, allowing more heat to be conducted into your food.

RESULT

- Food cooks more evenly.
- Creates deeper and thicker restaurant-style sear marks.

BUILT-IN PREMIUM GRILLS

PREMIUM GRILLS

We use premium-grade 300 series stainless steel, precisely cut with advanced lasers and constructed with heli-arc welding technology for the intense strength and durability essential for outdoor use. You'll see and feel our commitment to quality in every interaction with our superbly engineered and crafted equipment – responsive, intuitive, easy to use. And your family and friends will taste it in every delicious bite.

OUR STANDARD GRILL FEATURES

- 25,000 BTU burners, constructed of 1/2-gauge 304 stainless steel with lifetime warranty
- Pre-ignition system for easy start-up
- Built-in LED lighting for interior and exterior illumination provides a precise control knob setting
- Extra Large 3-Position Warming & Cooking Rack
- Reliable two surface ignition
- Easy-to-open hood assist system

SEAR ZONE

Sear foods faster with 25,000 BTUs of direct, intense infrared heat to seal in natural juices, for moister, more flavorful foods. You can choose to include a Sear Zone on our 36", 36" and 42" grills, standard on the 54".

CONCEALED HEAVY-DUTY ROTISSERIE SYSTEM

Our innovative rotisserie features a fully integrated rotisserie motor with 100 lbs. turning capacity. A unique chain-driven design provides consistent and uniform rotation of the rotisserie rot; two rotisserie rod positions keep the rotisserie rot from touching the rotisserie basket. You can choose to include a Concealed Rotisserie System on our 30", 36", and 42" grills. Standard on the 54".

30" OUTDOOR CHARCOAL GRILL

TECG30-C 30" CHARCOAL GRILL WITH ADJUSTABLE CHARCOAL TRAY AND AIR/TEMPERATURE CONTROL LOUVERS

IN HONOR OF THE BACKYARD PURIST

For those who crave the basic art of charcoal grilling, Twin Eagles gives you the ultimate way to light your fire. We've invented the future of charcoal grills, with easy air temperature control, a warming rack, and easy fuel access to manage the subtle mechanics of the charcoal art form. A must-have for every outdoor kitchen.

- Seamless welds and signature high-polished accents
- Double-lined hood
- Temperature gauge
- Warming/roasting rack
- Adjustable charcoal tray

AIR/TEMPERATURE CONTROL LOUVERS

EASY CHARCOAL ACCESS FRONT DOOR

THE ULTIMATE WOOD FIRED PELLET SMOKER & GRILL

TEPG366 36" WOOD FIRED PELLET SMOKER & GRILL
TEPG36R 36" WOOD FIRED PELLET SMOKER & GRILL WITH ROTISSERIE (SHOWN)

THE WOOD FIRED PELLET SMOKER & GRILL

combines the ultimate in performance and convenience, setting the standard for premium pellet grills. Accurate and versatile temperatures from 140° to 725°. Smoke, Bake, Grill, Sear & Rotisserie Cooking features deliver amazing results at the push of a button.

- All 304 stainless steel, seamless heli-arc welded construction and signature hospitalized accents.
- 3-7 layered cooking racks, jacks included.
- Internal halogen lights for nighttime cooking.
- Variable speed fan.
- Heavy duty 120V auger motor.
- Easy clean burner pot for easy cleaning and maintenance.
- SmokePlus™ feature to quickly infuse natural smoke flavor.
- Pellet storage drawer available for built-in applications Model TEG366 i-BL.

TOUCHSCREEN CONTROL
 Large, sleek, weather proof touch screen control allows you to manually set temperatures from 140° to 725° or choose one of several preprogrammed food items with multiple levels of doneness - Select and cook.

WI-FI ENABLED
 Monitor and manage temperatures from your mobile device (Apple and Android applications with real-time updates).

BUILT-IN WOOD FIRED PELLET SMOKER & GRILL

Extra-Thick Vaporizer Plate
Vaporizer plate is extra-thick, 16-gauge 304 stainless steel, prevents flare-ups, promotes natural convection and laminar airflow for powerful, smoky vapors.

Lump Wood or Charcoal / Direct Heat
A fan assists in reaching your desired cooking environment, creating an ideal direct heat environment. A fan assists in reaching your desired temperature quickly.

Sear / Direct Heat
Dirt exclusive Briquette Tray delivers the perfect combination of direct heat for exceptional sear for exceptional grilling or finishing foods with a quick sear.

Maximum Heat Retention
Double-walled front hood and heavy-duty oven grate, finished 304 stainless steel gasket create the perfect insulation and seal for maximum heat retention.

Front Load Hopper
Easy access front load pellet hopper with 13 lb. capacity allows you to quickly and conveniently check the pellet level and refill when necessary.

Drip Trays
Two independent drawers catch ashes and drips in removable / disposable pans for easy clean up. Additional space in the front of each drawer provides extra storage.

Hanger Hooks
Three stainless steel hooks with five positions allow you to hang foods. Suspend sausages and other foods over the grill surface for even cooking and perfect smoke flavor.

Concealed Heavy-Duty Rotisserie System
Fully integrated motor with 100 lb. turning capacity and unique chain-driven design provides consistent and uniform rotation of the rotisserie rod producing exceptional results.

3 Temperature Probes
Three stainless steel probes can be monitored on the grill's control panel or remotely with the We-Fi enabled App.

**ROBUST FEATURES.
ULTIMATE PERFORMANCE.**

Freestanding Unit Available
An integrated grill base (Model DF-250) is available for the freestanding unit. Smoker and features include center pellet storage drawer, soft-closing doors, fold-down side shelves with tool holders, and heavy-duty casters with front brakes for easy maneuverability and locking.

BUILT-IN ACCESSORIES

COOKING ACCESSORIES

TESB131-C & TESB152-C | SIDE BURNERS

COOK OUTSIDE THE GRILL.

Add one or two of our versatile 17,500 BTU dual ring sealed burners to your outdoor kitchen as the perfect complement to your grill, so you can simultaneously boil and stir-fry, sauté or simmer. The one-piece stainless steel "S" grate allows for easy maneuverability of pots and pans between burners.

- Available models:
 - Single burner (TESB131-C)
 - Double burner (TESB152-C)
- Electronic ignition
- Stainless steel cover included
- Exclusive Control Illumination

BUILT-IN WIND GUARD

TEBC30-C | DINE & BREAKFAST CLUB

DOUBLE YOUR OUTDOOR FUN.

We invented this griddle and burner duo for those gorgeous days when you want to be outside from morning to evening. Please the crowd with pancakes and omelets at breakfast or quesadillas and sautéed vegetables at dinner. Easy to light and offers precision temperature control. The perfect companion to your grill.

- GRIDDLE**
 - Stainless steel, solid cooking griddle surface
 - Thermostat control with heat on indicator light
 - Electronic hot surface ignition with safety gas valve
 - 70,000 BTU stainless steel griddle burner
 - 120 V electrical power cord supplied
- SIDE BURNER**
 - Stainless steel "S" grate to easily slide pots and pans between burners
 - Electronic ignition
 - 70,000 BTU dual-ring European sealed burner
 - Stainless steel cover included
 - Exclusive Control Illumination

SOLID COOKING SURFACE
Stainless steel

TETG30-C | TEPPANYAKI

JAPANESE STYLE - AMERICAN INGENUITY.

We borrowed inspiration from Japanese iron plate cooking to create our unique, easy-to-use, Teppanyaki griddle, a versatile addition to your outdoor kitchen. Perfect for cooking breakfast pancakes or omelets, we love using it all day – from grilled Cheese sandwiches at lunch to stir-fried vegetables at night.

- Stainless steel, solid 3/16" thick griddle surface
- Two independent thermostatically controlled burners
- Total of 40,000 BTUs
- Heat on indicator lights
- Hot surface ignition with safety gas valve
- 120 V electrical power cord
- Stainless steel cover
- Exclusive Control Illumination

TWO INDEPENDENT GAS BURNERS
Thermostatically-controlled

TEPB24-C | POWER BURNER WITH TRADITIONAL BAR GRATE

TEPB24HG-C | POWER BURNER WITH REVERSIBLE HEAVY DUTY PLATE GRATE (SHOWING)

TURN UP THE HEAT

Our incomparable oversized, cast brass, 2-ring Power Burner – rated at 70,000 BTUs – makes all other residential burners jealous with heat envy. We construct the reversible commercial cooking grate on Model TEPB24HG-C from 8 mm stainless steel welded plates. This accessory should star in every outdoor kitchen.

- Powerful 70,000 BTU burner with low simmer
- Reversible grate for restaurant stockpots and commercial woks (Model TEPB24HG-C)
- Stainless steel cover included (Model TEPB24HG-C)
- Grate made of welded plates
- Reliable hot surface ignition
- Stainless steel cover included
- 120 V electrical power cord
- Stainless steel cover
- Griddle plate dimensions 19" x 18" (Model TEPB152-C)

MODEL TEPB24HG-C REVERSIBLE GRATE
For restaurant stockpots and commercial woks

BUILT-IN ACCESSORIES

TE5G24 | SALAMANGRILL

FAST UNDER FIRE

Sear your steaks to juicy perfection or fire up a family-pleasing pizza in minutes with our high-performance patented Salamangrill. The infrared burner mounted above the cooking surface reaches 1700 degrees in 90 seconds to intensify juiciness and flavor without flare-ups. We throw in a 13" pizza stone for extra fun.

- Four-level porcelain carriage cooks:
- Pizza in 4 minutes
- 1 1/2" steaks in 4 minutes
- Fish in 4 minutes
- Chicken in 4-8 minutes
- Cooking paper rolls in and out for easy food placement
- 17" pizza stone included
- Infrared technology (U.S. Patent # 7,811,117)
- Custom vinyl cover included

TEWD30-C | 30" WARMING DRAWER

WARMING IN THE WINGS

Savvy outdoor cooks appreciate being able to prepare ahead, especially when coordinating a large meal. Keep food warm and ready to serve with our convenient warming drawer. Humidity management controls moderate moisture inside the drawer to prevent food from drying out. Low to high heat settings offer versatile uses from warming lowbets to defrosting food.

- Four (4) steam pans specifically designed for steam or dry warming
- Humidity management control
- Heat ranges from 65° to 220° F (15° to 162° C)
- 20 V electrical cord included
- Approved for indoor and outdoor use

TEWD42C-C | 42" WARMING DRAWER COMBO

A TOP DRAWER COMBINATION

Keep food warm, moist and ready to serve – and take advantage of extra storage with this smart, convenient multi-purpose unit. A storage drawer below the warmer lets you keep towels and mitts on hand. Use the large slide-out holder for a trash container or LP gas tank.

- 21 cu. ft. storage drawer
- Four (4) steam pans specifically designed for warming
- Humidity controls keep food from drying out
- Heat fluctuation from 60° to 220° F (15° to 162° C)
- Concealed thermostat control
- 20 V electrical cord included
- Approved for indoor and outdoor use

13" PIZZA STONE INCLUDED

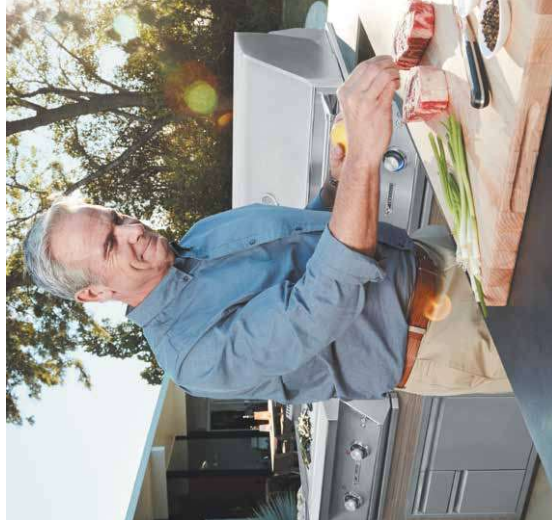

CONCEALED THERMOSTAT CONTROL

HUMIDITY CONTROLS

Keep food from drying out

BUILT-IN ACCESSORIES

BAR ACCESSORIES

TEOB30-B | 30" OUTDOOR BAR

ICE-COLD & CONVENIENT

Complete your backyard sanctuary with our convenient outdoor bar and you'll never have to run inside for ice again. Our 30" bar includes an insulated ice compartment that holds up to 40 pounds of ice. Keep beverages cool and condiments fresh in three specially-designed cooling compartments.

- Stainless steel sliding ice bin cover
- Front speed rail holds 1-liter bottles
- Stainless steel bar sink, power and food ring and chrome faucet

FRONT SPEED RAIL
Holds 1-liter bottles

THE PERFECT MINI-BAR

This compact beverage center features an insulated ice compartment that holds up to 40 pounds of ice and three cooling compartments to keep beverages on ice and condiments fresh. Excellent for outdoor entertaining.

- Stainless steel sliding ice bin cover
- Front speed rail holds 1-liter bottles
- Stainless steel bar sink, power and food ring

STAINLESS STEEL
BOTTLE OPENER

TEMC18 | 18" MARGARITA CENTER

PLUG AND PLAY

Mix it up to perfection and impress your guests with this versatile appliance station, complete with built-in GFCI 120 V electrical outlet. Create a cocktail mixing center, coffee & espresso bar or fresh juice bar with your preferred appliance, for endless entertainment possibilities from morning to midnight. (Blender not included.)

BUILT-IN ELECTRICAL OUTLET
(GFCI 120V)

TEOS24-B | 24" DROP-IN SINK

EVERYTHING INCLUDING THE KITCHEN SINK

Our elegant, commercial-quality sink boasts an oversized basin to accommodate large items and a soap dispenser* for quick cleanup. Beautifully designed with seamless welded construction for long life and to complement your other outdoor equipment. An outdoor kitchen essential.

- Integrated soap dispenser
- 3.2-inch stainless steel basket drain
- 1.5-inch cold faucet stud, approximately
- Includes stainless steel cover

INTEGRATED SOAP DISPENSER

BUILT-IN BAR ACCESSORIES

TEOR24-F | 24" OUTDOOR REFRIGERATOR

CHILL WHILE YOU GRILL

The ultimate backyard kitchen convenience, this stylish, outdoor refrigerator features 5.1 cubic feet of storage, two perforated slide-out shelves and door storage. Keeps marinated meats, side dishes and beverages barbecue-ready. A must-have.

- Approved for outdoor use
- Stainless steel exterior, sides, top and full-wrap door
- Interior LED lighting
- Interior door storage
- Precise temperature management between 32° and 42° F

TERD242-F | 24" TWO DRAWER OUTDOOR REFRIGERATOR

COOL HIDEAWAY

Enjoy the convenience of refrigerated drawer storage that provides easy access to food and beverages.

- Approved for outdoor use
- Durable stainless steel drawer construction
- Interior LED lighting
- Interior door storage for added security
- Precise temperature management between 32° and 42° F
- Energy efficient thermal insulated cabinet

TEBK24-F | 24" BEER DISPENSER/SINGLE TAP TEBK242-F | 24" BEER DISPENSER/TWIN TAPS

THE LIFE OF THE PARTY

Serve your favorite draft microbrew freshly cold and straight from the tap. Our beer dispenser holds half or quarter kegs and includes the draft tower, CO2 tank and regulator. Party central.

- Approved for outdoor use
- Two stainless-steel shelves (top can be used with a keg)
- Interior door lock for added security

TEIM15-F | 15" OUTDOOR ICE MACHINE

BREAK THE ICE

This sleek, efficient beauty produces up to 35 pounds of ice per day and stores up to 15 pounds of ice. An asset to any outdoor bar primed for epic backyard entertaining.

- Approved for outdoor use
- Stainless steel exterior
- Removable front panel allows for easy front out air flow
- 35 lbs. daily ice storage capacity
- 15 lbs. of built-in storage capacity
- Optional error pump (sold separately) (TEP-4N1-1)

TEOC24D-B | 24" DROP-IN COOLER

DRINK AND BE MERRY

This premium, party-ready drop-in cooler accommodates up to 60 bottles and 25 pounds of ice. The insulated bin and gasket-sealed lid keep contents ice-cold into the wee hours. Sleek, geometrical design shows off our signature polished accents and seamless welds.

- Removable sliding condiment tray
- Removable lid with interior storage compartments
- 39 lbs. drain with plug

BUILT-IN ACCESSORIES

DRAWERS

CLEVER CONCEALMENT

We design our built-in access doors and storage drawers with the same attention to detail as our premium grills and accessories. The external design complements our equipment, with Twin Eagles' signature exquisite polished accents, sleek finish and geometrical detailing. We engineer each door or drawer to slide seamlessly and effortlessly into place, with a weight-bearing strength and long-lasting durability intensified by the highest quality stainless steel.

TETD182T-B | 18" DOUBLE TRASH DRAWER

- Holds two larger containers (containers included)
- Use one container for recycling
- Tush handle design accent
- Full pullout drawer for easy access (100 lbs. capacity)

TETD18T-B | 18" TRASH DRAWER

- Holds larger capacity (container included)
- Tush handle design accent
- Full pullout drawer for easy access (100 lbs. capacity)

TETC-B | TRASH CHUTE

Smart, low profile trash chute aligns over built-in trash drawers (TETD18T-B or TETD182T-B) for easy disposal of bottles, trash and waste. A commercial cutting board also serves as a practical sliding lid. A stainless steel cover fits over the cutting board and chute to conceal when not in use.

- Removable sliding cutting board
- Angled side wall trash container below
- Stainless steel cover included
- Fits built-in trash drawers sold separately

TEPTISSD-C | 15" PAPER TOWEL DRAWER

■ Holds standard-size paper towels

■ Slide-out paper towel drawer

■ Strong tray

TECD30-B | 30" COOLER DRAWER

Keep a cooler on hand and out of the way of the action, with our convenient cooler drawer. Offers easy access to ice, cold beverages or marinated loads in your outdoor kitchen.

- 48 quart (ice chest sized) cooler tray
- One-piece mounting system for precision alignment
- Tush handle design with high-polished accents

DRY STORAGE CABINETS

SAFE AND SOUND

Every outdoor kitchen needs a weather-safe place to organize and store essentials. These smartly-designed dry storage cabinets seal snugly to ensure that contents are protected from exposure to the elements. The extra deep interior with fixed shelves and full extension drawers provides generous space and storage flexibility.

TETS-KIT | LP TANK/TRASH SLIDE KIT

This convenient and versatile sliding panel accommodates an LP tank or trash container. It is available in any color to match your outdoor kitchen.

- Fits most LP tanks and trash containers
- Easy access to LP tank or trash container

TEDS36-B | 36" DRY STORAGE CABINET

- Perfect companion to the 36" 42" or 57" built-in grill
- Full extension drawers behind left-hand door
- Large open storage compartment behind right-hand door
- Overall dimensions: 36" W x 20.25" H

TEDS36T-B | 36" DRY STORAGE CABINET - TALL

- 36-inch tall cabinet sits just below counter
- Full extension drawers behind left-hand door
- Full extension drawers behind right-hand door
- Full extension drawers behind right-hand door
- Overall dimensions: 36" W x 23" H

VENTILATION

TEVH36-B | TEVH48-B | TEVH60-B | TWIN EAGLES VENTILATION HOOD

A BREATH OF FRESH AIR

Safely remove excess smoke, odors and grease to protect your outdoor kitchen area and guests. High performance ventilation hoods draw heat, steam and grease away from your cooking area. Seamless, sophisticated design, with our signature polished geometrical accents, complements our grills and accessories. Available in 36", 48" and 60" sizes.

- Engineered and UL-approved for outdoor use
- 304 stainless steel construction with stainless steel baffle filters
- Remote thermostat control
- Halogen lamps with dual settings
- Internal and external blower motors sold separately

TEVH-060I 600 CFM INTERNAL BLOWER
 TEVH-120I 1,200 CFM INTERNAL BLOWER
 TEVH-150E 1,500 CFM EXTERNAL BLOWER

ACCESSORIES

TECT | CHARCOAL TRAY

THE BEST OF BOTH GRILLS

For those who savor the taste of food cooked over a charcoal flame, you can now enjoy the convenience of lighting it from your grill. We make our charcoal tray of 100% stainless steel and include a built-in ash collector for easy cleaning. Use the existing burner to light the briquettes or lump charcoal.

TEGP12 | GRIDDLE PLATE

VERSAGRILLITY

Transform our grills or side burners in seconds into a sleek griddle surface. Perfect for grilling pancakes, fajitas, or stir-fry. Made of durable stainless steel.

VINYL COVERS

THE PERFECT COVER-UP

Protect your investment with an all-weather vinyl cover. The soft interior protects our fine stainless steel finish, while the durable vinyl exterior shields your grill from harsh weather. Available for all built-in grills and built-in accessories including: Power Burner, Single & Double Side Burner, Dine & Breakfast Club and Teppanyaki Griddle. We also offer covers for all freestanding grills and the freestanding Dine & Breakfast Club and Teppanyaki Griddle.

FREESTANDING GRILLS

A MOVEABLE FEAST

Twin Eagles designed these elegant integrated grill bases to offer portability and a freestanding grill option for our 30", 36", 42" and 54" grills. Each grill base features our beautiful signature style and sleek architectural lines to complement our grills and accessories. Standard features include soft-closing doors and self-latching drawers, fold-down side shelves with tool holders, and heavy-duty castors with front brakes for easy maneuverability and locking. Use the convenient pullout tray inside to hold a trash receptacle or LP tank. Access doors and storage drawers feature flush handle design with high-polished accents.

TOOL HOLDERS

Innovatively designed tool holders on each side help keep your tools handy, yet conveniently out of the way, leaving shelves clear for food and other items essential to grilling.

HEATERS

TEGH48-B | 48" OUTDOOR GAS INFRARED HEATER

U.S. PATENT# 6,340,509 B1

TURN UP THE HEAT

Extend your outdoor entertaining into the cool of late evening – or even year-round – with our patented radiant gas heater powered by infrared technology. The wireless remote control allows you to adjust heat settings with ease. Enjoy exceptional heat coverage over a wide area to keep you and your guests warm and cozy as long as the party lasts.

- Five heat levels, low setting at 25,000 BTU and high at 37,000 BTU
- Wireless remote control (No electrical wiring required)
- Spark ignition with 100% safety pilot
- Adjustable safety grill provides shielding from wind (Optional only, 15 Wiring)
- Includes mounting brackets and gas hose

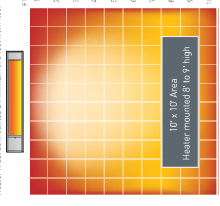

TEGH-AC | 120 VAC/6 VDC ADAPTER

- Optional accessory (sold separately)

HEATING AREA COVERAGE

Heater must be installed at a minimum of 65 feet from floor

TEEH2524 | 39" ELECTRIC RADIANT HEATER (INDOOR/OUTDOOR)

LENGTH: 39" • VOLTS: 240 • WATTS: 2500 • AMPS: 10.4

TEEH3524 | 61" ELECTRIC RADIANT HEATER (INDOOR/OUTDOOR)

LENGTH: 61" • VOLTS: 240 • WATTS: 3000 • AMPS: 12.5

WARM & COZY

Our energy efficient Electric Radiant Heaters will maintain a warm, comfortable atmosphere on cool nights indoors or outdoors. Designed for installation at lower mounting heights (six to eight feet), these heaters maximize heat where you need it most, making them excellent for coastal areas. We make the parabolic reflector of a special corrosion resistant alloy, an essential feature for humid climates or windy areas. Perfect for entertaining in your backyard, patio or deck.

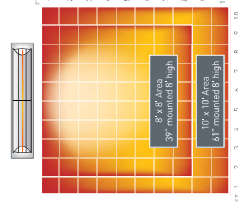

- Energy efficient: 90% of input energy is converted directly to radiant heat
- Lower mounting brackets allow a 6' clearance behind heater
- UL-approved

INCREMENTAL CONTROL

Web-mountable incremental control included for easily regulated heat settings.

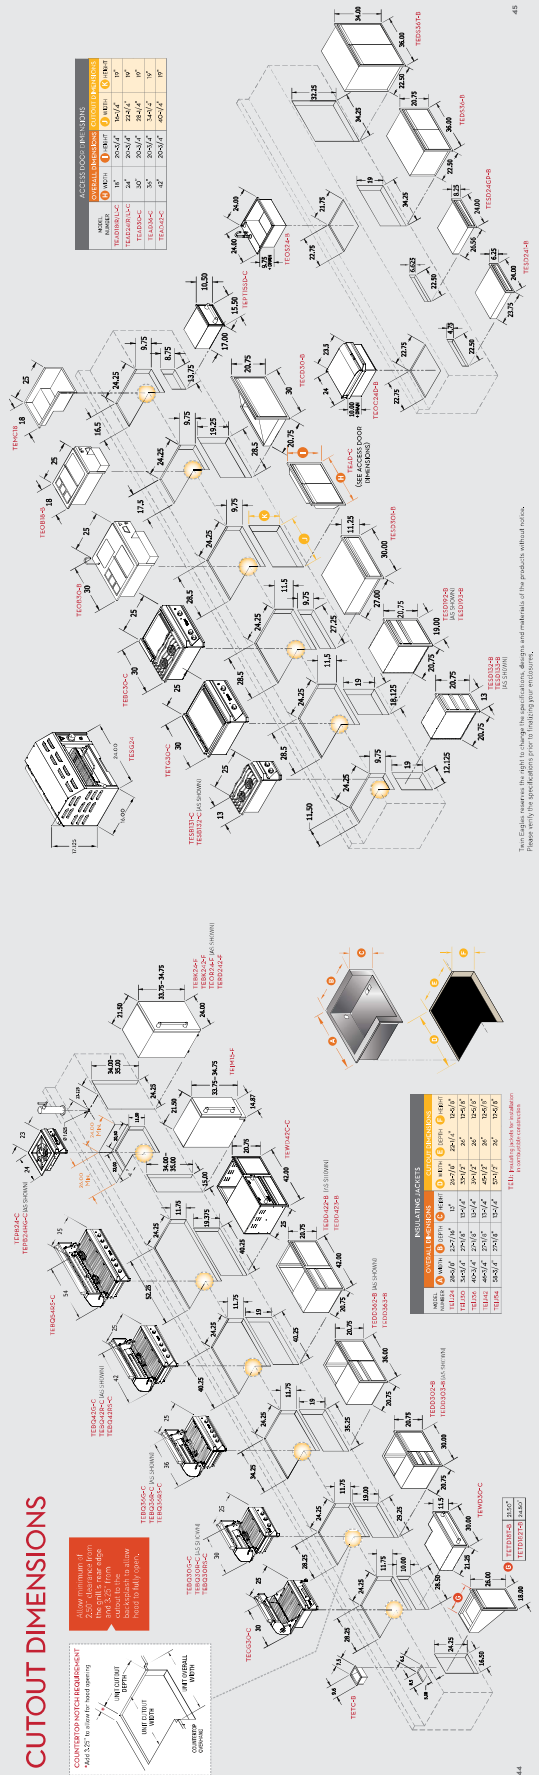

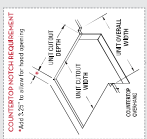

HEATING AREA COVERAGE

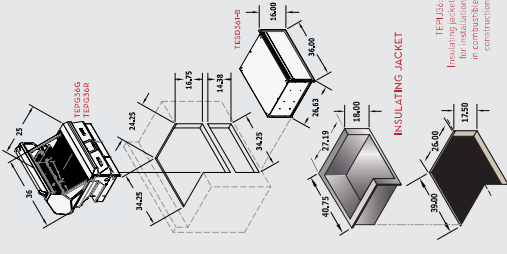

CUTOUT DIMENSIONS

NOTE: ALL CUTOUTS ARE 2.25" DEEP UNLESS OTHERWISE NOTED.

Note: Cabinet shown on the right is designed to accept the specifications, designs and materials of the products without notice. Please verify the specifications prior to installing your equipment.

MADE IN THE USA WITH PRIDE

Our name was inspired by the eagle and our founder's twin children. The eagle is the national bird of the United States and represents independence, vision and strength. Twin Eagles shares those same qualities and embraces the very highest standards in our design and manufacturing. All of our products are made in the USA - designed and manufactured to embody the impressive characteristics of the eagle - by the finest craftspeople in the industry at our own state-of-the-art workplace in California.
