MULTI-FUNCTION KETTLE

MODEL # KW-1332

Voltage: 230V a.c. 60Hz Power: 1100 WATTS

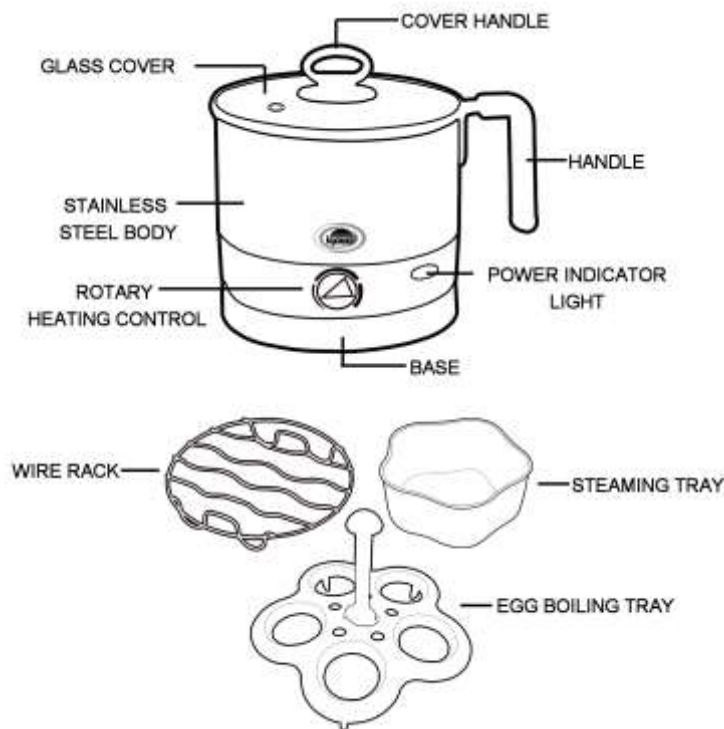

INSTRUCTION MANUAL

CONGRATULATIONS

You are now a proud new owner of a KYOWA Multi-function Kettle model no. KW-1332.

Before using for the first time, kindly take time to carefully read your instruction manual. Please observe all safety precautions and follow operating procedures. After reading, kindly store your instruction manual in a safe place for your future reference. Should you pass on this Multi-function Kettle to a third party, please hand over this instruction manual as well.

PARTS DESCRIPTION

IMPORTANT SAFEGUARDS

When using the Multi-function Kettle, basic safety precautions should always be followed:

- Always operate your KYOWA Multi-function Kettle from a power source of the same voltage and frequency rating as indicated on the rating label.
- Make sure that the kettle is unplugged when filling with (cold) water.
- Always ensure that the kettle cover is in place when boiling water.
- Connect the Multi-function Kettle unit only to properly wired wall outlets.
- Do not use Multi-function Kettle in damp or wet area. Keep dry the exterior and the base of the kettle.
- Do not place the Multi-function Kettle on uneven surfaces. Place upon a flat area surface.
- Do not operate or place any part of your KYOWA Multi-function Kettle on or near any hot surface such as a gas or electric burner, hotplate or heated oven.
- Do not operate the Multi-function Kettle if any part of it including the supply cord has been damaged. Return the appliance to the nearest authorized dealer or service facility for repair.
- Do not use the unit other than its intended function to avoid any untoward incident.
- Do not use or replace parts including the stand, and accessories other than the ones originally provided.
- Never leave the Multi-function Kettle unattended when in use.
- Do not move Multi-function Kettle when power is ON or when the water inside is still boiling. Turn power to OFF before moving.
- Avoid touching hot surfaces of the Multi-function Kettle during use. Use the cover or handle only.
- Electric kettle body and heater may be hot even after use; use caution when handling the unit.
- Turn OFF the Multi-function Kettle before removing from the base.
- Hold plug when unplugging from socket. Do not unplug by pulling the supply cord.
- Switch OFF and unplug the Multi-function Kettle from outlet before filling, emptying, when not in use or before cleaning.

- To reduce the risk of electric shock, do not immerse or expose the Multi-function Kettle to rain, moisture or any liquid; avoid spillage on the power cord, base, or any connectors of the unit.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- This KYOWA Multi-function Kettle is intended for normal domestic/household use only. This unit is not suitable for commercial use.

HOW TO USE

- Remove all packaging materials from the Multi-function Kettle.
- Wash kettle with lukewarm water before using for the first time.
- Fill the Multi-function Kettle with water, or any food with enough liquid reaching the MIN mark but not exceeding the MAX marking to prevent overflowing when boiling.
- Place the kettle on the base.
- Make sure the kettle is turned to OFF before connecting the plug to the power outlet.
- Plug power cord to outlet.
- Turn ON kettle by rotating heating control clockwise up to the desired heating level. Power Indicator Lamp will light up.
- Multi-function Kettle will automatically cut off power once maximum heating temperature has been reached and water inside the unit has dried out – this is to avoid the unit from overheating. Once the unit cools down, Multi-function Kettle will automatically switch to ON again.
- Turn off power by rotating heating control knob counter-clockwise to OFF.
- Discard water when boiling for the first time.

CLEAN AND CARE

- After every use, wash the Multi-function Kettle unit with warm soapy water.
- Never use abrasive cleaning agents or any metallic and sharp objects (e.g. scrubbing brush or knife) for cleaning.
- Use a moist cloth to wipe the Multi-function Kettle.
- Do not use dishwasher to clean any part of the Multi-function Kettle.
- After washing, wipe dry all parts and store in a cool, dry place.
- Remove lime scaling when you observe an excess of steam or boiling time takes too long. If the water in your area is alkaline rich, it is highly recommended to remove lime scaling every two months. To do so:
 - Dilute 50ml vinegar in 1 liter of water and fill the kettle with the mixture. Bring to a boil then switch Multi-function Kettle to OFF. Allow mixture to stand overnight.
 - Bring the mixture to boil again then discard it. Clean the Multi-function Kettle with warm soapy water. To eliminate vinegar residues, operate the Multi-function Kettle with water for two cycles.
- Remove plastic odor from the kettle by filling in cold water and adding a teaspoon of bicarbonate of soda. Bring to a boil then discard water. Rinse kettle thoroughly before use.

SERVICE

- Do not operate your KYOWA Multi-function Kettle if the unit malfunctions or appears damaged in any manner. Bring the complete product to the place of purchase or to any authorized KYOWA dealers for inspection, repair or replacement.
- Do not disassemble the Multi-function Kettle by yourself. No user serviceable parts inside. Refer all service to an authorized KYOWA service facility ONLY.
