# RICE JAR

**MODEL NO.: KW-2150**

Voltage: 230V a.c. 60Hz Power: 700 WATTS

# INSTRUCTION MANUAL

## CONGRATULATIONS

You are now a proud new owner of a KYOWA Rice Jar model no. KW-2150.

Before using for the first time, kindly take time to carefully read your instruction manual. Please observe all safety precautions and follow operating procedures. After reading, kindly store your instruction manual in a safe place for your future reference. Should you pass on this Rice Jar to a third party, please hand over this instruction manual as well.

## PARTS DESCRIPTION

## IMPORTANT SAFEGUARDS

When using your Rice Jar, basic safety precautions should always be followed:

- Always operate your KYOWA Rice Jar from a power source of the same voltage and frequency rating as indicated on the rating label.
- Connect the Rice Jar unit only to properly wired wall outlets.
- Place the Rice Jar on a flat surface and far from the edge of counter top.
- Keep at least 1 inch of space between the Rice Jar and the wall for proper ventilation.
- Do not operate the Rice Jar if any part of it has been damaged. Return the appliance to the nearest authorized dealer or service facility for repair.
- Do not operate or place any part of your Rice Jar on or near any hot surface such as a gas or electric burner, hotplate or heated oven.
- Do not use or replace accessories of the Rice Jar other than the ones originally provided.
- Do not operate Rice Jar if the inner pot is empty.
- Some parts of the Rice Jar have been slightly greased and as a result, the rice jar might slightly emit smoke when connected for the first time. This however, will cease after you have used the unit for some time.
- Avoid touching hot surfaces of the rice jar during use. Use the handle only.
- Switch OFF and unplug the Rice Jar from outlet when not in use or before cleaning.
- Hold plug when unplugging from socket. Do not unplug by pulling the supply cord.
- Use caution when removing pot from the Rice Jar after operation.
- To reduce the risk of electric shock, do not immerse or expose the Rice Jar to rain, moisture or any liquid.
- Keep out of reach from children or from persons with mental or physical disabilities.

## HOW TO USE

### HOW TO COOK RICE

- Wash rice grains in a separate container. Do not use the inner pot for washing rice to prevent it from getting deformed or scratched.
- Transfer rice into the inner pot. Always fill in pot with enough rice and water reaching the MIN mark but not exceeding the MAX marking.
- Put enough water into the pot to cover rice. Pour one cup of water for every cup of rice – this however depends on the type of rice used and as well as to personal preference when cooking.
- Place inner pot into the rice jar. See to it that the base of the inner pot is dry and clean.
- Plug in power cord into the Rice Jar unit making sure that it is firmly set in place.
- Plug the other end of the power cord into the power supply, cook indicator light shall light up.
- Press down Rice Jar switch then press down ON/OFF switch to turn the unit ON. COOK indicator light shall illuminate.
- Rice Jar will automatically switch to WARM once the rice is cooked already; WARM indicator lamp will then light up.
- Allow rice to sit for about 15 minutes before serving.
- Unplug power cord from the power supply when not in use or if you are not intending to use the keep warm function of the rice jar.

## CLEAN AND CARE

- Allow Rice Jar to cool down completely before cleaning.
- Wash inner pot with warm water and a mild dishwashing soap.
- To remove rice residue in the pot, soak it with warm soapy water overnight then rinse.
- Do not use harsh cleaning agents or abrasive objects (e.g. scrubbing pads or metal brushes) for cleaning.
- Clean outer surfaces of the Rice Jar with a soft and damp cloth.
- Wipe dry Rice Jar with a soft and dry cloth then store in a clean and dry place.
- Put back parts and accessories of the Rice Jar to their proper places before operating again.

## SERVICE

- Do not operate your KYOWA Rice Jar if the Rice Jar malfunctions or appears damaged in any manner. Bring the complete product to the place of purchase or to any authorized KYOWA dealers for inspection, repair or replacement.
- Do not disassemble your KYOWA Rice Jar by yourself. No user serviceable parts inside. Refer all needed repair to an authorized KYOWA service facility ONLY.
