GAS STOVE

MODEL NO.: KW-3500

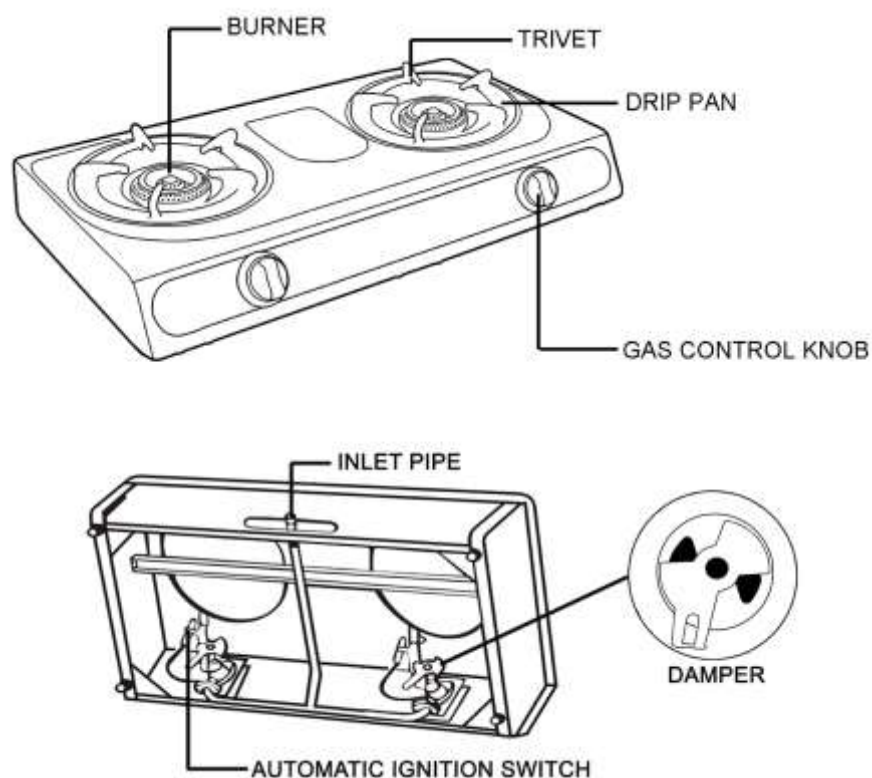

INSTRUCTION MANUAL

CONGRATULATIONS

You are now a proud new owner of a KYOWA Gas Stove model no. KW-3500.

Before using for the first time, kindly take time to carefully read your instruction manual. Please observe all safety precautions and follow operating procedures. After reading, kindly store your instruction manual in a safe place for your future reference. Should you pass on this Gas Stove to a third party, please hand over this instruction manual as well.

PARTS DESCRIPTION

IMPORTANT SAFEGUARDS

When using your Kyowa Gas Stove, basic safety precautions should always be followed:

- Use liquefied petroleum gas (LPG) only from reputable and authorized dealers.
- Always use good quality standard size gas hose.
- Use a regulator with auto safety feature and with pressure gauge.
- Do not place gas hose at the bottom of the stove.
- Do not use or replace accessories of the Gas Stove other than the ones originally provided.
- Do not operate the Gas Stove if any part of it has been damaged. Return the appliance to the nearest authorized dealer or service facility for repair.
- Do not operate or place any part of your Gas Stove on or near any hot surfaces such as an electric burner, hotplate or heated oven.
- Put heavy pots over the burner gently.
- Maximum pot and food weight for each burner is 5 kgs.
- Avoid dropping any kind of heavy objects on the surface or on the burner part of the Gas Stove.
- Avoid touching hot surfaces of the Gas Stove during use.
- Never leave the Gas Stove unattended when turned ON. Always switch unit to OFF when not in use or before cleaning.
- Always make sure that the burners are free from any blockage. Use steel wire to clean out clogged holes of the burner.
- Do not immerse or expose the Gas Stove to rain, moisture or any liquid.
- Never allow water or any kind of liquid to seep into the automatic ignition switch.
- Keep out of reach from children or from persons with mental or physical disabilities.

HOW TO USE

- Remove all packaging materials from the Gas Stove.
- Push gas hose up to the red marking on the inlet pipe.
- Fasten hose into the inlet pipe by tightening hose clamp.

- Open the main gas valve.

- Push gas control knob then turn counter-clockwise until you hear the ignition click and fire comes out of the burner.
- When fire does not come out of the burner, simply turn back knob to OFF then try to turn it ON again.

- To turn Gas Stove to OFF, turn gas control knob clockwise.

- Regulate flame quality coming out of the burner by adjusting damper under the body of the stove. Move damper clockwise or counter-clockwise until you have obtained good flame quality as shown below:

GOOD (Perfect combustion)
The whole flame is pale blue.

BAD (Insufficient Air Supply)
The flame is long and reddish.

BAD (Excessive Air Supply)
The flame is cut.

CLEAN AND CARE

- Allow Gas Stove to completely cool down before cleaning.
- Wash movable parts under running water. Never use dishwasher or pour hot water on the unit when cleaning.
- Do not use harsh cleaning agents or abrasive objects (e.g. scrubbing pads or metal brushes) for cleaning.
- Use damp cloth to clean body of the Gas Stove.
- Pat dry all parts using a soft, dry cloth.
- Put back parts and accessories of the Gas Stove to their proper places before operating again.

SERVICE

- Do not operate your KYOWA Gas Stove if the unit malfunctions or appears damaged in any manner. Bring the complete product to the place of purchase or to any authorized KYOWA dealers for inspection, repair or replacement.
- Do not disassemble your KYOWA Gas Stove by yourself. No user serviceable parts inside. Refer all needed repair to an authorized KYOWA service facility ONLY.
