

Upgrade Your Kitchen Safety

Kitchen safety is important to protect your loved ones and property. With the Gas Hob with Timer Control, you can be assured of peace of mind with additional safety features designed in the gas hob.

There is no open flame until you have set the digital timer on the gas hob. It can be pre-set up to 120 minutes which is perfect for making broths and soups. When the preset time is reached, gas supply is automatically cut off and an alarm sounds to alert you.

For additional safety, the gas hob comes with a flame failure device which cuts off gas supply when the flame goes out due to strong winds or overflowing liquids.

Timer Alert Function

Alarm goes off and gas supply is cut off when preset time is up

Flame Failure Safety Device

Cuts off gas supply when the flame accidentally goes out

Enamelled Cast Iron Pan Support

Promises easy cleaning and stability for heavy-duty cooking

About Life by City Energy

Life by City Energy provides smarter home and kitchen solutions for homeowners who are committed to better living.

Located at Plaza Singapura, we are the only interactive retail experience that offers live demo on gas water heaters, gas hobs and gas dryers.
